PURULIA,
The 7th December 1875.

(Sd.) W. B. MORTON, *Lieut.-Col.*,
Chairman.

No. 669, dated Chota Nagpore, the 31st March 1876.

From—W. LEE. ROBINSON, Esq., Commissioner of the Chota Nagpore Division,
To—The Secretary to the Government of Bengal, Public Works Department.

WITH reference to the Government orders No. 4952 of the 24th September 1872, and No. 50 of 23rd July 1873, I have the honor to submit in original the local improvement reports* and returns from the District Committees in this division for the cess year 1874-75.

* Hazareebagh, No. 122, dated 19th February 1876.
Lohardugga, No. 17D, dated 31st December 1875.
Singbhoom, No. 36D, dated 13th January 1876.
Manbhoom, No. 21D, dated 25th February 1876.

2. The Manbhoom report came latest to hand, and has delayed the submission of my divisional report. It is moreover a very meagre one, and contains no information regarding the operations under the Road Cess Act. I have called Colonel Morton's attention to the orders on the subject, and pointed out what details his future reports should give.

3. The year under review was the second year of the road cess collections in Hazareebagh. The assessment was fixed, as in the preceding year, at three-fourths of the maximum rate, and the total demand on account of the cess on lands was therefore the same as in 1873-74. The total collections of the year on account of lands, mines, and houses amounted to Rs. 28,026, but out of this sum Rs. 572 had to be refunded for reasons detailed in paragraph 23 of the Committee's report. On the whole, the provisions of the Cess Act have been carried out in this district smoothly and satisfactorily, and it is a matter of congratulation that, as reported by the Deputy Commissioner, "there was not a single instance during the last two years in which it was found necessary to have recourse to sale of any moveable property or to attachment of the estates themselves for the recovery of the arrears."

The system of collections adopted answered well; the house cess was collected by the excise establishment of the district, and so there was no additional expenditure on this score.

4. In the Manbhoom district the road cess was collected for the first time during the year under report; but as the district was under great pressure in the previous year on account of the scarcity, collections were made from seven pergunnahs only, and hence the total amount shown in the present accounts is comparatively very small. The Deputy Commissioner, however, reports that the zemindars and tenure-holders of his district were very slow in the payment of their cess instalments on due dates, and he was therefore obliged to resort to the stringent measure of attaching the defaulters' properties under section 23 of the Act.

5. The total demand of the cess on lands was for the year Rs. 8,358, of which Rs. 4,126 was realized and Rs. 2,707 refunded to Bankoora, being collections from pergunnah Mohesara, transferred to that district, and the bulk of the remaining balance falling due on 28th September last it could not be recovered during the year. The house cess of the year amounted to Rs. 1,325, out of which Rs. 1,164 was realized, and Rs. 3 was written off, as it was erroneously twice entered in the accounts. These latter collections were made by paid peons, but towards the close of the year I directed the Deputy Commissioner to make these collections through the excise establishments, as in Hazareebagh, and this system is now being pursued during the current year.

6. The provisions of the Road Cess Act were extended to the Lohardugga district during the year under report under Government Notification No. 2088 of 5th October 1874, but the operations did not commence until the end of December. The valuation work is proceeding satisfactorily.

7. With regard to the action of the Road Committees, the real work is done by the official members, the non-official members seldom taking any interest in the proceedings; and when they do attend meetings of the Committee, they do so as a matter of form or etiquette, and seldom take any active share in the proceedings, and vote as they think will be pleasing to the local authorities, which is perhaps the best thing they can do until the country is further advanced in civilization.

8. Information regarding the District Road Committees has been furnished only by the Deputy Commissioner of Hazareebagh; the other Deputy Commissioners have been called on to supply the necessary information, which will be submitted to your office separately, as directed in paragraph 10 of the proceedings of the Public Works Department No. 1286 of the 13th instant.

9. Under notification of the Public Works Department, No. 469 of the 29th December 1874, the following assignments were made to the several districts in this division for the cess year under report:—

	Rs.
To Hazareebagh	5,000
„ Lohardugga	20,000
„ Singbhoom	10,000
„ Manbhoom	15,000

But subsequently, by orders of your office No. 1262 of the 10th March 1875, a sum of Rs. 5,000 was withdrawn from the grant to the Lohardugga district and credited to Government, and a special grant of Rs. 2,400 was made to Hazareebagh under order No. 1601 of 24th March 1875 for completing the Churwa and Gonda bridges.

10. The total amount at the disposal of the Hazareebagh District Committee was during the year of report Rs. 43,889, and the total expenditure amounted to Rs. 33,107; of the latter, Rs. 18,448 was spent on original works and Rs. 5,701 on repairs. The details of these works are given in the Committee's report, but from the Deputy Commissioner's remarks on some of the roads inspected by him, it is quite clear that when the work was in Mr. Pereira's hands it was not well done and not sufficiently supervised. The necessity for visiting other parts of the division prevented my seeing much of the roads in the Hazareebagh district during the past year, with the exception of the main line from Hazareebagh to Giridhi, which being provincial, does not come within the scope of this report. The only local road I did go over was the one from Kurrukdeha to Pachumba; and that can scarcely be dignified by the title of a road, as it is a mere cart track.

11. During the year of report the Lohardugga District Committee had a net sum of Rs. 40,437 available for expenditure, out of which Rs. 33,640 were spent. Of this latter sum an expenditure of Rs. 12,481 was incurred on account of cost of establishment and refunds of fines, as detailed in the 6th paragraph of the Committee's report. The charges for establishment are rather heavy, but it will be borne in mind that the valuation work under the Road Cess Act is now going on, and consequently this item must necessarily be costly. The remainder, or Rs. 21,159, was spent on roads, &c., in the two main divisions of the district, *viz.* Chota Nagpore Proper, or Sudder division, and Palamow sub-division, the amount spent on original works being Rs. 1,832 and that laid out on repairs being Rs. 19,327.

12. Full details of these works will be found in the Committee's report, and it does not appear necessary that I should make any further remarks on the subject. The only road referred to, which I have travelled over, is the one from Daltongunge to Ranchee, which is in tolerable order considering the difficult nature of the country through which it passes.

13. In Singbhoom the total amount to the credit of the Road Fund was Rs. 16,807, and the total expenditure amounted to Rs. 14,888, leaving a balance of Rs. 1,919 on the 30th September 1875. The amount spent on repairs is somewhat more than double of what was laid out on original works. A beginning of road cess operations will be made in Dhulbhoom this year.

14. The Manbhoom Committee had a total sum of Rs. 76,976 available for expenditure during the year, but of this sum Rs. 54,586 represents the value of surplus grain received from Government during the famine year. The Committee further received from Government a loan of Rs. 7,000 for turfing embankments, and this money was duly spent, but it does not appear in the Committee's accounts submitted for the year. The total expenditure of the year was Rs. 71,468, and of this sum Rs. 55,920 were laid out in original works, and only Rs. 17 on repairs. The details of these works are given in a separate statement submitted by the Deputy Commissioner, which shows that of the total sum spent on them, Rs. 44,399 was given in rice.

HIGH COURT NOTICES.

Circular Orders Issued by the Authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 6, dated 24th April 1876.

District Judges are directed to submit all applications for the construction of new Court-houses, or for repair of the existing buildings, direct to the Government of Bengal, and not to or through the High Court.

No. 7, dated the 1st May 1876.

The Court adopts the following Circular Order issued by the High Court, North-Western Provinces, and directs careful compliance with the practice enjoined :—

"It has been noticed by the Court that when a Civil Court allows a plaint to be amended, instead of the amendment being forthwith made in the plaint itself, the order to make the amendment is merely filed with the record.

2. "The Court points out that when such permission or order is given, the amendment must be made in the plaint at once, and orders that it be attested by the signature of the presiding Judge."

No. 8, dated the 12th May 1876.

With a view to avoid wear and tear of the seals recently provided for the use of District Judges, Government has, on the recommendation of the Court, sanctioned the supply of seals of a smaller size and simpler make for use on minor occasions.

2. These seals, when ready, will be forwarded by the High Court.

3. It must, however, be understood that they are not to be used for sealing judgments, writs, processes, or other documents made or issued judicially; for such purpose the regular seal of the Court should alone be employed, under the superintendence of a responsible officer. But for all other purposes the smaller seals should be used.

Sheriff's Office, the 3rd May 1876.

NOTICE is hereby given that the Fifth Criminal Sessions of the year 1876, of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Wednesday, the Thirty-first day of May next, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. RESOLUTION.

GENERAL DEPARTMENT—MARINE—No. 1526.

Calcutta, the 27th May 1876.

READ—

The following papers on the subject of the grounding of the ship *Mahableshwar*:—

Letter from Messrs. Lyall, Rennie and Company, dated the 29th February 1876.

Letter from the Officiating Master-Attendant, No. 1730, dated the 8th March 1876.

Letter from the Officiating Deputy Master-Attendant in charge, No. 2653, dated 13th April 1876.

Letter to the Deputy Master-Attendant in charge, No. 1179, dated 21st April 1876.

Letter from the Officiating Deputy Master-Attendant in charge, No. 3269, dated 5th May 1876.

1. Messrs. Lyall, Rennie and Company have complained that this ship, of which they are agents, grounded in the Rungafulla Channel on the 14th January, when going to sea under the pilotage charge of Mr. Wells, Acting Branch Pilot. They say that an alteration in the channel was communicated to the Master-Attendant on the previous day, the 13th, but was not made known, as it should have been, to the pilots.

The ship's grounding, they add, has caused a loss of Rs. 25,000: and they request that enquiry may be made into the practice of the Master-Attendant's office, in giving information to pilots of changes which occur in the channels.

2. In this case, the Lieutenant-Governor considers that it is clearly established that the pilot and the Master-Attendant's office were in no way in fault, and that the entire blame attaches to the River Surveyor. It is the duty of the River Surveyor, when he finds any change in the channels, at once to send to Bankshall a report and a duplicate sketch. The report is copied into the channel order book, and one of the sketches is kept there: this makes the change known to the pilots in Calcutta, who are bound to inform themselves of all entries in the channel order book. The original report, with the duplicate sketch, is then sent down to the Sandheads, for the information of the pilots on board the brigs.

3. Besides these special reports and sketches, the River Surveyor sends up, from time to time, charts showing those alterations which have already been embodied in the special reports. These charts are not examined in the Master-Attendant's office; they are sent on at once to the Surveyor-General for reproduction by photozincography, and copies are then available for sale to merchants and to the public. It is understood that no change will appear in the chart, which has not already been made the subject of a special report.

4. The River Surveyor, Mr. Laycock, had sent up, on the 28th December, a report, with sketches in duplicate, of certain changes in the Rungafulla Channel. On the 8th January he sent a chart, which reached the Master-Attendant's office on the 13th, and was as usual sent on to the Surveyor-General without examination. But this chart showed an important change in the channel, of which no report and sketch had previously been given. A spit of sand had run out into the usual navigation channel, and it was upon this spit that the *Mahableshwar* grounded. If the channel had been in the condition shewn by the report and sketch of the 28th December, the pilot would have had 23½ feet of water at the place where the ship grounded. She was drawing 21½ feet, and the chart of the 8th January showed 20½ feet in this place.

5. Mr. Laycock's explanation is to the effect that he thought the change of no great importance, and that, if the pilot had kept more to the eastward, he would have had plenty of water. The Master-Attendant shows, in the 8th paragraph of his letter, that this explanation cannot be accepted as satisfactory.

6. The Master-Attendant was not, the Lieutenant-Governor thinks, to blame for not examining the chart. He might reasonably presume that it would not contain any information which had not previously been specially communicated. The pilot was not to blame for not keeping further to the eastward, as he had every reason to suppose that he was keeping a perfectly safe course.

7. The River Surveyor seems to the Lieutenant-Governor to have committed a grave neglect of duty in omitting to report, in the usual manner, a material change in one of the navigating channels; and it is to this neglect that the disaster to the ship is to be attributed. Mr. Laycock is in general honourably distinguished by vigilance and attention to his duties, and the Lieutenant-Governor regrets the necessity for passing this censure upon him. But in this case it is evident that Mr. Laycock's omission to report the alteration resulted in causing a considerable loss of property, and endangered the safety of the vessel and the lives of those on board. The Lieutenant-Governor therefore directs that Mr. Laycock be informed that his neglect of duty in this instance is regarded by the Government with serious displeasure, and that he be warned that inattention and oversight cannot be excused in an officer who holds so responsible a post as that of River Surveyor.

TRIAL OF CERTAIN MEMBERS OF THE GHOSAL FAMILY ON THE CHARGE OF ASSAULTING THE POLICE.

RESOLUTION.

READ—

Judicial Proceedings for March 1876, Nos. 392-95B, and for April 1876, Nos. 70-72B, relating to the recent trial and conviction of some members of the Ghosal family, residing at No. 69, Mirzapore Street, by the Magistrate of the Northern Division of the town of Calcutta on a charge of assaulting the police.

Read also—

A letter No. 525, dated the 7th ultimo, from Mr. Dickens, Magistrate of Calcutta, Northern Division, furnishing the information called for by the Lieutenant-Governor in connection with the case.

A letter No. 720, dated 18th ultimo, from the Commissioner of Police, Calcutta, submitting a further report on the matter.

A memorial dated 5th ultimo, from Baboo Ram Chunder Ghosal, complaining of two members of his family having been punished by the Magistrate, forwarding certain affidavits alleging violence on the part of the police, and stating that he is thankful to hear that the Lieutenant-Governor has taken up the case, and confident that the wrong done to him will be redressed.

1. Public attention having been directed to this case as involving a principle of some importance, the Lieutenant-Governor deems it desirable to record his observations thereon.

2. It appears that a policeman arrested an old woman on a charge of obstructing the footpath. She was in fact a person who had been in the habit of selling vegetables, and sitting on the public pathway just outside the gateway of the large house belonging to the respectable and well-known Ghosal family. Having thus arrested her, he was, after a short altercation, attacked by several persons belonging to the household, dragged by them into the compound of the house, and there assaulted with some severity. He was rescued by a party of police who came for the purpose from a neighbouring station on receiving information of what had occurred, and who found the policeman lying on the ground within the compound of the house, surrounded by a number of persons.

3. These facts were clearly deposed to by six witnesses before the Magistrate, who convicted two persons of assaulting the policeman, and imposed on each of them a fine of Rs. 50 (fifty). The correctness of the conviction must be accepted, and upon such a conviction the sentence was quite moderate, in reference to the means and position of the defendants.

4. If these persons, and others who were evidently concerned in the disturbance, considered that the policeman had exceeded his powers and had acted harshly towards the old woman at their gate, they would have rendered a service to the public by reporting the matter to the proper authorities. But whatever their feelings may have been regarding the case, there was no justification for the proceedings of the defendants in taking the law into their own hands and assaulting a policeman.

5. It is stated in the account of the occurrence given in the affidavits submitted by Baboo Ram Chunder Ghosal, that one of the members of his family was knocked down by the policeman by a blow with his baton. No such allegation, however, was made either before the investigating officer or the Deputy Commissioner of Police, and there appears room for doubt whether any such assault really occurred.

6. The point, however, to which the Lieutenant-Governor's attention is attracted is this. The disturbance which occurred in this case was primarily attributable to the unlawful act of the policeman in arresting the old woman. In this particular the responsibility must in some degree attach to the Police Department, as it is admitted that, though the policeman had shewn a want of ordinary intelligence and discretion in the matter, he had followed the usual practice, and the tenor of the general instructions which had been issued to him and to others.

7. From the enquiries which have been held, it is open to question whether the old woman, who was well known in the neighbourhood, and was sitting partly in a private gateway, was causing any real obstruction of the public way; and it is clear that the obstruction, if any, was so trivial as not to call for any interference by the police. Moreover, as she was sitting at the gate of a house inhabited by a large family of native gentlemen, doubtless with their acquiescence, the fact of her being seized before their eyes was sure to cause irritation, and was, in short, just one of the things which are apt to provoke disturbance wheresoever they happen. And as she had been plying her little trade on this spot for some time, there was no sort of urgency in the matter. If therefore a policeman thought she was obstructing the road, he ought not to have used force, but should have reported the matter to his superior officer. An arrest indeed, under such circumstances, implies a degree of inconsiderate thoughtlessness which cannot be allowed. The man was only a private of the police force; but even then he ought to have had a better idea of his duty in dealing with the people than to make an arrest under such circumstances.

8. But, irrespective of the fact that the conduct of the policeman is thus shewn to have been both harsh and unnecessary, and such as might well call for reasonable remonstrance from those who witnessed the arrest, it is to be observed that the obstruction of a road or pathway is not one of the offences for which the police are empowered to make an arrest under the Calcutta Police Act. Though it is clearly the duty of the police to keep the public thoroughfares free from all obstructions, and though they can always require a person to

move on who may be obstructing the streets in any way, the law gives them no power to arrest, unless the person objecting to move on when directed to do so is unknown, and refuses his name and address. It is superfluous to add that in this instance the person causing the obstruction (if indeed there was any obstruction at all, which may be doubted) was unmistakeably known.

9. The Lieutenant-Governor considers that the police cannot arrest offenders, save in such exceptional cases as those in which the persons cannot be known, and in the still more rare cases in which an arrest may be justifiable on the plea of urgent necessity, or with reference to the supreme law of public safety; and that ordinarily the only legal course for the police to follow is to ascertain the names of persons causing obstructions, and to proceed against them by obtaining a summons if necessary.

10. The illegality of the procedure sometimes followed by the police in arresting persons for petty offences in the streets has been more than once noticed and commented upon by the Lieutenant-Governor. He is sure that it will cease. He cannot admit that, in executive matters of this nature, it is ever necessary for the police to exceed the powers accorded to them under the law. If they do that, or even if they exercise their lawful functions in an inconsiderate way, he must, however reluctantly, condemn them, although he is quite willing to support them in the execution of their duty when that is performed in accordance with law and in a proper manner.

11. The Commissioner of Police will have no difficulty in insisting on a strict compliance with the procedure above indicated for the future, and on clear and definite orders being issued to all grades of the force for their guidance in all such matter. The police of the lower grades must be made to understand precisely what the law is, and what are the powers which it confers upon them, and they must be strictly warned that if at any time they exceed their powers, the responsibility will rest with them to show that their proceedings were clearly justifiable on the grounds of urgent and unavoidable necessity.

12. Sir Richard Temple has entire confidence in the zeal and ability of the Commissioner so to arrange that the object of this Resolution shall be fulfilled.

By order of the Lieutenant-Governor of Bengal,

R. L. MANGLES,

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 3rd June 1876.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.			
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, June 5,* '76	·89	Weather—The rainfall at Jehanabad has been ·74 inches, and at Raneegunge a few drops. No change in the state and prospects of the crops. Ploughing has begun. A few cases of cholera reported.
2	Bankoora, „ 3, „	Nil.	Weather—Rain is much wanted everywhere. The very early rice crops will be a comparative failure. The *aous* will not be much affected if rain fall within the next week. Cholera is still reported.
3	Beerbhoom, „ 3, „	Nil.	Weather—Cool and showery. State and prospects of the crops good. Ploughing and sowing of early rice are in progress.
4	Midnapore, „ 3, „	·28	Weather—Only one appreciable fall of rain at the Sudder Station during the week. More rain is wanted.
5	Hooghly, „ 3, „	1·04	Weather—Sultry. Moderate rainfall on the 28th May. Sowings of *aous* and jute are going on. *Amun* being sown in swampy lands. Brinjals, ginger, turmeric, and *kochu*, being sown in *sunah* land. *Amun* seedlings being prepared in nurseries. The rain of the last week has done good to the *aous*, jute, *arhar* indigo, and sugarcane. More rain needed. Water-mellons, cucumbers, *potols*, &c., and mangoes, still being gathered. General health is normal.
	Howrah, „ 3, „	·19	Weather—Hot, with occasional slight showers. Ploughing is going on actively.
	Central Districts.		
PRESIDENCY DIVN. 6	24-Pergunnahs, June 5,† '76	·27	Weather—Seasonable. Cultivation of *aous* paddy and jute commenced. Health in general is good.
7	Nuddea, „ 3, „	Nil.	Weather—Heavy rain in Meherpore. Moderate rain in Kooshtea. Little or none elsewhere. At head-quarters cloudy, and generally very hot. The prospects both of rice and of indigo are very good.
8	Jessore, „ 3, „	·55	Weather—Cloudy and hot, with occasional light showers. The heavy rain in the last week had somewhat delayed sowing in the low lands. The more favorable weather this week has allowed the water to dry up sufficiently to permit sowing. The prospects of crops continue good in every respect.
9	Moorshedabad, „ 3, „	·89	Weather—Slight rain all over the district. The *bhadoe* crops look well. An eight anna outturn of *boro* rice is expected in some parts. Mulberry and indigo are doing well. Prices are stationary. Health is good.
RAJSHAHYE DIVN. 10	Dinagepore, „ 2, „	·45	Weather—Rain general till 28th. The rainfall at Roygunge has been ·52 inches. *Bhadoe dhan* is nearly all sown. Plant is good. Jute is also good. Small-pox is still bad. There were 84 cases since the outbreak, and 25 deaths up to date. Cholera also continues. There were 620 cases since the outbreak, and 416 deaths up to date.
11	Maldah, „ 3, „	A few drops.	Weather—Very hot and sultry. No deaths from cholera reported.
12	Rajshahye, „ 3, „	·63	Weather—Hot, with occasional clouds. The little rain that has fallen throughout the district has been beneficial. Ploughing is still going on actively. The *til* (sessamum) crops and young paddy plants are thriving. Still more rain is required for ploughing in the northern thana. Public health is generally good.
13	Rungpore, „ 2, „	·61	Weather—Hot. The rainfall at Gyabunda has been 1·54, at Kurigram ·48, and at Bagdogra 1·23 inches. Prospects of the crops are good. Early *aous* is being cut.
14	Bogra, „ 3, „	1·36	Weather—Very hot, with a little wind and rain. The rice, both *aous* and *amun*, are doing particularly well. There were really no grounds whatever for the apprehensions experienced last week about the *aous* crop.
15	Pubna, „ 3, „	1·27	Weather—Alternate rain and heat. The rainfall at Serajgunge has been 4·15 inches. State and prospects of the crops are very good at present.

	***Central Districts.*—(*Continued.*)**		
Cooch Behar Divn. 16	Darjeeling, June 2, '76	·81	There was not so much rain as during the previous week, yet there were light showers nearly every day. The young crops are progressing favorably.
Cooch Behar Divn. 17	Julpigoree, „ 3, „	·83	Weather—Extremely hot, cloudless skies, and scarcely any wind. Relief came yesterday in the shape of a good shower. Very good reports regarding all crops throughout the district.
Cooch Behar Divn.	Cooch Behar, May 31, „	4·7	Weather—Heavy fall of rain on the night of Friday; no rain since. Sunny and very hot. The sunny weather has come at the right time for the crops, and enables the cultivators to weed *dhan* and to reap the *cheena* crop. The general prospects of crops are very fair. Seedlings of *hoemanti dhan* are being sown for subsequent planting out. Jute is doing well. Cholera is still prevalent in Sudder sub-division, but in Mechligunge there is none.
	Eastern Districts.		
Dacca Divn. 18	Dacca, June 5,* '76	·15	Weather—Very hot. State and prospects of the crops are satisfactory.
Dacca Divn. 19	Fureedpore, „ 3, „	·72	Weather—Very sultry, with no rain till Friday. Rain fell at Madaripore on the 25th, 26th, 27th, and 31st May. The rainfall at Goalundo has been ·78, and at Madaripore 5·73 inches. State and prospects of the crops are very fair. Fine glowing weather, and the absence of rain facilitates weeding. *Til* or sessamum being reaped. A better crop in places than for seven years. Melons, mangoes, and cucumbers ripening. *Jali* rice is nearly all reaped; *aman* and *sous* rice are doing well, but backward in the less low lands. General health is good.
Dacca Divn. 20	Backergunge, „ 1, „	2·8	The prospects of the season are good. Rain has fallen everywhere. From all appearances the rainy season has begun, which is very early. The health of the inhabitants of the district has improved.
Dacca Divn. 21	Mymensingh, „ 2, „	·88	At Tangail the rainfall has been 4·32 inches, and at Kishoregunge 2·76 inches, during the same period. The state and prospects of the crops are favorable.
Dacca Divn. 22	Tipperah, „ 1, „	3·13	Weather—Rainy during the first half of the week, hot and close during the latter part. Prospects of the early autumn rice, *aous*, are very good. Generally prospects of all rice crops are good.
Chittagong Divn. 23	Chittagong, „ 1, „	4·99	Weather—Stormy. The state of the crops is very favorable. The rain has been just sufficient, and not too much. It is now again bright, and it will be probably some days before heavy rain again falls. Cholera has diminished.
Chittagong Divn. 24	Noakholly, „ 1, „	8·53	Weather—Generally cloudy and cool. Good showers of rain on the 25th, 26th, 27th, and 29th. Wind generally south, sometimes north. The cultivation for the early and late rice is still going on, and is progressing favorably, as sufficient rain has fallen. Health is good.
Chittagong Divn. 25	Chittagong Hill Tracts, May 30, „	4·17	Weather—Rainy throughout the week. Sowing still continues. The young paddy plants are thriving well. Scarcity of food is reported from the Chengri and the Fenny valleys. Mr. Showers, Assistant Superintendent, has been directed to proceed at once to inquire into the matter. Proclamations have been issued inviting traders to import rice into the places mentioned above.
Chittagong Divn.	Hill Tipperah, „ 31, „	3·55	Weather—Rain has been general. The rice crops in the plains promise well. Jooming operations are going on in the hills, and the prospects of the crops are good.
BEHAR.			
Patna Divn. 26	Patna, June 5,* '76	·14	Weather—Excessively hot. Every sign of rain, but none has fallen worth speaking of. Much rain is wanted for the preparation of the lands and for the health of the district. No crops worth mentioning. Cholera cases continue to be reported from all parts of the district.
Patna Divn. 27	Gya, „ 3, „	·01	Weather—High east winds and great heat. Signs of the rains approaching. Highest reading of thermometer is 107·2. What crops are coming up require rain now. Sugarcane and *cheena* kept growing by constant irrigation. Public health is fairly good.
Patna Divn. 28	Shahabad, „ 3, „	Nil.	Weather—Strong eastern wind, gathering clouds, but very hot, and often very close. Sugarcane is only on the ground. Cholera is still prevalent.
Patna Divn. 29	Durbhunga, „ 3, „	Nil	Weather—Intensely hot. Want of rain in the south continues to be seriously felt, while in the north the advent of the monsoon is eagerly expected. The condition of the people in Mudhoobunnee is not materially different from what it was last week. The mangoe crop is an abundant one. Cholera and bowel complaint are still prevalent.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Contd.*)			
PATNA DIVS.—(*Contd.*) 30	Mozufferpore, June 3, '76	Nil.	Weather—Very hot. There has been no rain during the week. Agricultural operations are proceeding satisfactorily. Prices are stationary.
31	Sarun, „ 3, „	A few drops.	Weather close and oppressive, with east wind prevailing. There were a few drops of rain on Thursday afternoon. *Cheena* is fast ripening; sugarcane is doing well. The late rain has improved the prospects of indigo generally, and fresh lands are being sown. Grounds are being prepared for the *bhadoe* crops. In Burhuria, an outpost of thana Sewan, in the Sewan sub-division, the *bhadoe* sowings have commenced. Cases of cholera are reported from Sewan and Durowli.
32	Chumparun, „ 2, „	Nil	Weather—Very hot and close, rain threatening, and a few drops fell yesterday afternoon. The prospects of the crops are good, but rain will be wanted next week.
BHAGULPORE DIVN. 33	Monghyr, „ 3, „	Nil.	Weather—Fair. An inch of rain has not fallen in the district for about nine months. It is much wanted for the growing indigo, and also for *bhadoe* sowings. Prices continue easy.
34	Bhagulpore, „ *5, „	·2	Weather—Easterly winds and heavy clouds. Rains apparently about to set in. There has been no rain reported from the sub-divisions, and rain is now very necessary for all the crops. General health is very good. A little cholera here and there.
35	Purneah, „ 3, „	Nil.	Weather—Very hot, with east wind. Last week's rain, and the sunshine which has succeeded it, has been very favorable for the growing rice, which is coming on well.
36	Sonthal Perghs. „ 4, „	·06	Weather—Very little rain. Ploughing is backward.
ORISSA.			
ORISSA DIVS. 37	Cuttack, May 27, '76	1·11	Weather—Close and cloudy. Rain has fallen in many parts of the district, not very heavily as yet, but sufficient to enable the people to begin ploughing. In some parts, however, ploughing is still retarded for want of rain. More rain may be expected. Prices have not risen perceptibly. Cholera rather bad along sea-coast. Elsewhere public health is good.
38	Pooree, June 1, „	1·98	Weather—Some good showers in all parts. Ploughing is going on actively, and sowing of the rice crop has commenced in places.
39	Balasore, „ 2, „	2·47	In the north of the district abundance of rain has fallen, and fair progress in ploughing and sowing has resulted. In the south prospects have improved, but more rain is required. In the centre and south of the district, and along the east coast, cholera still rages violently, the number of deaths reported during the fourth week in May being 297. As compared with the previous week, the mortality from cholera shows an increase of 41 per cent.
CHOTA NAGPORE.			
	South-Western Frontier Agency.		
40	Hazareebagh, June 2, '76	0·44	Weather—Very variable, sometimes very sultry and sometimes very cool. Rain has fallen throughout the district, but the fall has been very scanty and partial. It is to be hoped that the regular rains will set in speedily, and somewhat earlier than usual. Cholera is still prevalent.
41	Lohardugga, „ 3, „	·28	Weather—Very cloudy and unsettled. In nearly the whole of the Sudder sub-division there has been light rain. Ploughing is going on in nearly the whole of the Sudder sub-division. More rain is still required everywhere, especially in those parts of the Sudder sub-division where the rainfall has been extremely slight and quite insufficient. In Palamow sub-division the people are busy in preparing seed-beds. Rain is now expected. In Ranchee and its vicinity there have been a considerable number of cholera cases. Small-pox is still prevalent in Palamow. Public health otherwise good.
42	Singbhoom, „ 2, „	2·91	Weather—Seasonable. Agricultural operations progressing with every hopeful prospect. No further reports of sickness.
43	Manbhoom, „ 3, „	·06	Weather—Insufficient rain. State and prospects of the crops are poor owing to scanty rainfall. There is a proverb in Bengali that in the month of *Joisto* there should be three falls of rain in such quantity that the ryots would be unable to leave their houses. There was no such rain, consequently there has been little ploughing. The Deputy Commissioner is afraid that there will be little or no *gora dhan* crop in August and September. The mahajuns are not advancing money to the ryots, who are consequently in many places living for the most part on *mahwa* fruit. Unhealthy season. Cholera is still bad. 119 deaths reported during the week at head-quarters. The cause of cholera among poorer classes of the people is attributed to their living upon mohwa and drinking bad water.

* Telegram of the 6th June, received on the same day, shows rainfall during the seven days immediately preceding.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

GOVERNMENT OF INDIA,—FINANCIAL DEPARTMENT.

RESOLUTION.

Simla, the 31st May 1876.

The Governor-General in Council is pleased to resolve that, in the absence of specific orders to the contrary, whenever any sum due to the Government in sterling money is tendered or recovered in Government Rupees, the amount to be accepted in British Indian currency shall be calculated at the rate of exchange fixed for the adjustment of financial transactions between the Indian Government and Her Majesty's Imperial Government at the time the demand for payment is made. It will always, however, be at the option of the debtor to discharge his obligations by a bill payable on demand drawn upon London by any well known Bank or Firm.

NOTIFICATION.

The 13th June 1876.—The following application, made by the Municipal Commissioners of Darjeeling, for a loan of Rs. 30,000 under the Local Public Works Loan Act, XXIV of 1871, for the purpose of increasing and improving the water-supply of the station, for extending the drainage, and for railing the more dangerous roads thereof, is hereby published for general information, under Section 5 of the Rules prescribed by the Government of India in the Financial Department in Notification No. 3761, dated the 15th October 1873.

R. L. MANGLES,
Offg. Secy. to the Govt. of Bengal.

We, the undersigned Municipal Commissioners of Darjeeling, under Act III (B.C.) of 1864, beg to submit the following application for a loan of Rs. 30,000, and to request that His Honor the Lieutenant-Governor will be pleased to grant it :—

1. The loan is required for the following purposes :—

I.—The increase and improvement of the water-supply of Darjeeling, which is insufficient for the purposes of the station during four months of the year, by tapping the Kotwalli Spring at a point on or near the Auckland Road, and connecting this point with the existing pipes above Woodlands, and by erecting new and improved hydrants. Estimated cost Rs. 13,000.

II.—The extension of the present drainage in the direction of the Hospital, Kohel and other hill streams, so as to prevent the accumulation of sewage in the slopes lying under the Bazar and Victoria Road. Estimated cost Rs. 8,000.

III.—The construction of railings along the more dangerous parts of the following roads :—

Auckland Road.	Birch Hill Road.
Victoria Road.	Station Roads

Estimated cost Rs. 9,000.

2. The amount of loan now applied for is Rs. 30,000.

3. The security offered for the above will be as follows :—

	Rs.	A.	P.
I.—Proceeds of house-tax, estimated to yield ...	5,784	12	0
II.—Horse and poney-tax	600	0	0
III.—Rent of locations	4,684	0	0
IV.—Bazar rents	13,000	0	0
V.—Native village rent	1,300	0	0
VI.—Pound fines	500	0	0
Total ...	25,868	12	0

4. The house and horse taxes are levied under Act III of 1864.

The rents of locations with which those of native villages are to be classed were first assigned to the use of the Sanitarium in 1838. This was confirmed by orders of Government passed in 1854, again in orders No. 217, of the 14th January 1864, and finally in the Resolution of the Government of Bengal dated 27th June 1873.

The bazar rents are derived from buildings erected by the Municipality out of its revenues, and situated on land made over to it by Government.

The pound fines were made over to the Municipality under orders dated 14th October 1862, contained in letter No. 3625, from the Under-Secretary to the Government of Bengal to the Superintendent of Darjeeling.

5. It is proposed to take the loan in two instalments of Rs. 15,000 each, viz. Rs. 15,000 on the loan being sanctioned and Rs. 15,000 on the 1st July next. It is proposed to pay back the loan in twenty years by equal half-yearly instalments of Rs. 750, or 1,500 per annum.

In this manner the payments would be made within twenty years, as provided in Clause C, Rule X of the Rules of the 15th October 1873.

6. It is not possible to give the details required for the three years last preceding, as the limits of the Municipality were much reduced in the beginning of the year 1874-75, and the sources of income, as well as the objects of expenditure, were so much affected by this change that any attempt at comparison with former years would be deceptive.

The following table shows proceeds of the various sources of Municipal income in 1874-75 :—

	Rs.	A.	P.
House-tax	5,028	8	4
Horse-tax	579	0	0
Bazar rents	11,732	4	8
Rent of locations	4,484	8	0
Rent of native village	1,231	11	5
Pound fines	229	13	0
All other sources, viz. hospital subscription, sale of garden produce, &c.	4,583	2	7
Total ...	27,868	15	7

The expenditure during the year was Rs. 27,494, out of which Rs. 700 consisted of recoverable advances, and Rs. 1,583 was a contribution to a work outside the new limits of the Municipality.

7. The value of bazar buildings, &c., is about Rs. 1,50,000.

8. There are no existing prior charges upon any of the sources of income above enumerated.

REVISED DRAFT RULES PROPOSED UNDER ACT III (B.C.) OF 1876.

No. 200.

NOTIFICATION.—IRRIGATION BRANCH.

Dated the 13th June 1876.

IN exercise of the powers conferred on him by Act III B.C. of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following draft rules for the Sone Canals.

Rules under Act III B.C. of 1876.

1. The Collector, before awarding compensation under sections 16 and 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur. From the decision of the Divisional Canal Officer an appeal shall lie to the Superintending Canal Officer, whose order shall be final.

3. Water shall not ordinarily be granted where the length of the water-course, from its head to its point of contact with the village boundary, would exceed two (2) miles.

4. Water for irrigation shall not be supplied, except through a water-course so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*) the water will pass without wastage;

(*b*) the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation, will not be obstructed.

5. The Divisional Canal Officer may withhold or postpone the grant of water for a crop to any cultivator whose fields he may have ascertained by personal inspection (by himself or one of his assistants) to be unprepared for irrigation by division into compartments not greater in area than 1 cottah or 1361·25 superficial feet, and by the addition of small water channels, as is customary in irrigation from wells.

Rice-fields are exempted from the operation of this rule.

NOTE.—*This rule shall only apply in those cases in which the discovery is made previous to the first watering of a crop; the water having been once given cannot be withheld for that crop, but a higher rate may be levied as provided in Rule 25.*

6. Persons desiring to construct a village channel shall prefer a written application to the Divisional or Sub-Divisional Canal Officer. In the latter case the application shall be forwarded to the Divisional Canal Officer.

7. The application, if granted, shall be subject to the Act, and also, unless otherwise specially agreed upon, be deemed granted under the following conditions:—

(*a*).—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(*b*).—That the applicants nominate a headman known or ascertained to be a substantial person possessed of property to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the water-course according to their shares, and to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the water-course.

(*c*).—That in any case where persons desirous of taking water fail to appoint a headman, or cannot agree among themselves as to the headman, the Collector shall nominate, and the Divisional Canal Officer appoint, a headman.

(*d*).—That the headman shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under Rule 10.

(*e*.)—That for each crop, previous to water being taken for any field, application shall be made in the prescribed form (Appendix A.) through the said headman to the Sub-Divisional Canal Officer or other officer authorized to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B.) from such officer.

(*f*.)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates difficulty in realizing water-rates, he shall intimate the same to the Collector or Sub-Deputy Collector, in whose option it shall be to require payment of water-rates in advance.

(*g*.)—That any other cultivators in the same village, able and willing to irrigate their lands from the said water-course, shall be admitted as shareholders in the water-course on paying their proportionate share (to be determined by the amount of land they hold) of the first cost and maintenance of the water-course.

(*h*.)—That all alterations in the number of shareholders, distribution of shares, or nomination of headman, shall be reported for the sanction of the Divisional Canal Officer.

8. The Divisional Canal Officer may accept the nominee of the shareholders in a water-course as "headman" of such water-course, and is empowered to pay him the fees as hereinbelow detailed, subject to the condition of satisfactory performance of duty.

9. The allowance to the headman of a water-course for duties connected with that water-course, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be 5 per cent. on the assessments of canal water-rates derived from the water-courses in his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

10. The allowance to the headman of a water-course for collecting the water-rates shall be 5 per cent. on the assessments, and shall be paid by the Collector on receipt of the full payment of demand for that crop and not otherwise, unless he can satisfy the Collector that the balance in arrear is so through no negligence of his. The payment to be made within two months of the dates named in the permit.

11. An appeal against retrenchments under Rules 9 and 10 shall lie to the Superintending Canal Officer and Commissioner respectively if preferred within thirty days of such retrenchment, and the Superintending Canal Officer or Commissioner's decision shall be final.

12. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

13. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following regulations:—

(*a*.)—No tank shall be so filled unless exclusively used for domestic purposes, and for watering cattle; such tanks are generally in the immediate neighbourhood of villages.

(*b*.)—No tank shall be so filled from which irrigation is practised.

(*c*.)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d.*)—No tank shall be so filled except on the written order of the Sub-divisional Canal Officer, issued on the written applications of the parties concerned. The filling of tanks can only be permitted at such times, and to such extent, as the Sub-divisional Canal Officer approves.

(*e.*)—No tank shall be so filled unless the water-course used to fill it shall be shown to the satisfaction of the Sub-divisional Canal Officer to be in a sound condition when the application is made.

(*f.*)—The privilege herein accorded may be suspended for twelve months for breach of these regulations, by written order of the Divisional Canal Officer, subject, however, to revision by the Superintending Engineer, whose decision shall be final.

14. The Divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any water-course when he has satisfied himself by personal inspection (by himself or one of his Assistants) that the water-course is not maintained in proper repair. Immediate report of any such closure shall be made to the Superintending Canal Officer, and the special ground for stoppage explained.

15. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the headmen of water-courses. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Officer to stop any supply of water in case of pressing emergency.

16. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

17. Claims to remission, under section 76 (*b*), of ordinary charges payable for use of canal water shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any portion of the charges. All applications for remission of water-rate shall be made to the Divisional Canal Officer at least seven days previous to the cutting of the crop. An appeal from the Divisional Canal Officer's decision shall lie to the Superintending Canal Officer, whose order shall be final.

18. Before awarding compensation under section 76 (*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. Under this rule an appeal shall lie to the Commissioner of the Division, whose order shall be final.

19. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follows :—

WATER-RATES.

NOTE.

1 Cottah ... ... = 1361·25 superficial feet.
1 Beegha ... ... = 27225·00 " "
Acre ... ... = 43560·00 " "

20. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

21. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate.

23. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

24. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant Governor.

25. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated, in addition to such penalties as may be imposed under sections 93 and 94 of the Act.

26. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower charge if he thinks fit.

27. If mixed crops be grown in the same field, the water-rate shall be calculated on the highest rated crop.

28. When the original crop sown in a canal-irrigated field fails and is ploughed up, and a fresh crop is sown in the same season, the water-rates leviable shall be due on the second crop.

29. When a field is irrigated which has not been prepared by division into compartments and by the addition of small water channels as prescribed in Rule 5, an additional charge may be imposed, equal to half the amount of water-rate leviable on the field. In each case the Divisional or Sub-divisional Officer must certify that he personally examined the field, and that it was not properly prepared for irrigation according to the terms of the rule.

30. The amounts demandable for water-rate shall be determined and apportioned by the Divisional Canal Officer.

31. All water-rates shall become due on the dates noted on the "permits," viz. the dates on which the crops ordinarily come to maturity, and are as follows:—

Water-rate on spring crops,—wheat, barley, peas, poppy, &c.,—shall become due on 31st March.

Water-rate on summer crops,—cheena, &c.,—shall become due on 30th June.

Water-rate on bhadoi crops,—seera rice, Indian-corn, murwa, &c.,—shall become due on 31st October.

Water-rate on annual and winter crops,—aghani rice, joaur, &c.,—on 31st December.

and shall be paid within one month of such dates.

32. In the case of lands held on Báoli tenures, half the water rates shall be recoverable from the zemindar or landlord.

33. Collection of all water-rates will be made by the Collector strictly in accordance with the statement of demands furnished to him by the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

34. The Collector will make the collections through the Deputy Collectors attached to each division of the canal, and the Subordinate Canal Revenue Establishment.

35. Objections to the demand on the score of short supply, or of matters affecting the Irrigation Department, addressed to the Collector, shall be referred by him to the Canal Divisional Officer. Meanwhile the collection of the demand shall not be suspended.

36 Claims for remission so referred by the Collector, and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer.

37. A remission statement signed by the Superintending Canal Officer, shall be sufficient authority for a refund by the Collector.

38. If the decision of the Divisional Canal Officer uphold the original demand, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order. The decision of the Superintending Canal Officer shall be final.

39. In cases in which the water-rate is irrecoverable, from the absconding or bankruptcy of the defaulter, or when the question at issue does not depend on the canal supply, or the action of the Irrigation Department, the Collector will obtain sanction to remission of canal demands from the Commissioner of the Division. All such remissions shall be reported at the close of each official year to the Divisional Canal Officer.

40. If a cultivator is dissatisfied with the entries made against him in the "permit" (Appendix B), whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the headman of his water-course, with the Divisional or Sub-Divisional Canal Officer within fifteen days of the issue of the permit.

41. No person, without the permission in writing of the Divisional or Sub-Divisional Canal Officers, shall pass, or shall cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting upon such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

42. No Canal Officer, unless specially exempted by the Lieutenant-Governor, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

REPORT OF HEALTH OFFICER FOR THE PORT OF CALCUTTA FOR 1875.

GENERAL DEPARTMENT—MARINE—No. 1720.

Calcutta, the 19th June 1876.

READ—

A letter from the Sanitary Commissioner of Bengal, dated 18th May 1876, forwarding the report of the Health Officer of the Port of Calcutta from the 1st September 1875, the date of Dr. French's assumption of the office, to the close of the calendar year.

THE question of the conservancy in the port of Calcutta has long been under consideration, and the need of special sanitary arrangements for the port has repeatedly been pressed upon Government. It is not, indeed, the case that the port of Calcutta has ever been altogether without sanitary inspection and supervision. Although it was not considered necessary to promulgate any general quarantine rules, individual cases were dealt with as they arose; but there never was systematic supervision and inspection in Calcutta. Quarantine rules have never been enforced: it is believed they are not necessary, and that recourse should not be had to rules which cause much inconvenience and interference with trade until the necessity for the rules has been established by proof of the existence of a new and real danger. But if quarantine rules are not to be enforced, the desirability of making arrangements for the systematic inspection of the port by a competent medical authority becomes evident; and it was accordingly recommended by the Lieutenant-Governor that a Health Officer for the Port of Calcutta should be appointed, to be placed under the orders of the Sanitary Commissioner of Bengal, but to be in all other respects an independent officer, not subordinate

to the Port Commissioners, the Justices of Calcutta, or the Suburban Municipality. The appointment of this officer was sanctioned by the Government of India in May 1875, and Dr. J. G. French, who was the first officer appointed, took charge of his duties on the 1st of September 1875. He has now submitted a report to Government which covers the period from the 1st September 1875 to the close of the year.

2. The Health Officer has recorded some valuable notes on cholera, and the services that have already been rendered to sanitation by his observations and enquiries have sufficiently shown the necessity that existed of establishing his appointment. It is pointed out by the Sanitary Commissioner that the condition of the river banks is the most serious subject dealt with in Dr. French's report. From a sanitary point of view, there is not much difference between any particular parts of the river, though the returns show that the Esplanade moorings are perhaps the worst for cholera. But it must be remembered that the Hooghly is a strong tidal stream, and that, as a consequence, pollutions are carried up as well as down the current. Of the 34 cases of cholera reported during the four months under review, 12 occurred in the Union dock (one outbreak), eight occurred in the Esplanade moorings, five at the Jetties, five at Prinsep's, and four in the Hastings moorings. These observations must be extended over a long period of time before really valuable results can be arrived at.

3. The outbreak of cholera on board the French ship *Marguerite*, which had gone into the Union dock for repair, was exceptional. The crew consisted of 24 men, who had all been healthy at sea, and were healthy in port. As long as they used the water brought into port with them, no case of cholera occurred; but subsequently, on using water supplied by one of the Hooghly water-boats, 12 cases of cholera occurred, and seven of them proved fatal. The situation of the Union dock is explained to be most unhealthy. Here 500 workmen use one wooden latrine, which is cleaned by flushing its contents into the river. Then, again, there are two trapped municipal drains passing through the yard of the docks, which render the entire neighbourhood offensive. Dr. French distinctly traced the cause of cholera on the *Marguerite* to the supply of Hooghly water instead of water from the municipal hydrants; and as soon as pure water was supplied the disease stopped. The boatmen had sold very bad and decomposed water to the captain instead of the hydrant water he had sent for. The Lieutenant-Governor is glad to see it stated that there has been no recurrence of this. Dr. French has constantly inspected the boats, and on no occasion has he been able to detect any cheating, or find fault with the water. Most of the ships, while in port, are said to use the water of the port whence they have come, and to fill up from a hydrant or a water-boat a few days before leaving for sea. The captains have great faith in using water to which their sailors have been accustomed for some time. Arrangements are now almost complete, under which the Calcutta Municipality and the Port Commissioners will be able to supply all ships with water from the hydrants, their own staff superintending the arrangements, and water fouled by the bottom of boats or river pollutions will not be supplied to the ships in future.

4. The supply of adulterated milk is also a source of cholera. Recently the Health Officer has traced some cholera cases that occurred in the ships *City of Peebles*, *Hereford*, and *Savoir Faire* to the *goalas* in Howrah having mixed the water of tanks fouled by dirty clothes with the milk they sold to the sailors. The Howrah Municipality have been desired to license only such *goalas* to supply milk as can supply a sufficient quantity of pure milk.

5. Scurvy is stated to have been confined to Cape-going ships, and to be due to the long voyages and want of vegetable diet. One very bad case, that of the "British ship *Howden*, one of Bates' ships," is recorded. The vessel was 171 days at sea from Liverpool to Calcutta, with a cargo of salt, and arrived in port with six cases of scurvy on board out of a crew of 29. Dr. French reports that "six weeks after leaving Liverpool the water-supply failed, and the men were put on short allowance. After leaving the Cape the only water on board was rain-water, which the men collected on deck and stored. Fresh messes could not be, or were not, issued, but lime-juice was daily served out. The ship is an iron vessel and 20 years of age. Owing to the length of the voyage, want of water, constant use of salt provisions,

and bad accommodation, the crew suffered great hardships." The Lieutenant-Governor considers that the facts of this case disclose a very unsatisfactory train of circumstances that merit further enquiry. A fuller report will be called for, with a view of submitting the facts for the consideration of the Board of Trade. The disease of scurvy has no doubt much diminished in consequence of the precautions adopted in recent years, but it cannot be regarded as otherwise than unsatisfactory that it should now be found to exist at all in English ships. As Dr. Coates, the Sanitary Commissioner, points out, the quantity of food carried by these Cape-going vessels needs careful looking after; and now that compressed vegetables, tinned meats, and preserved fruits can be procured in abundance, there should be no such disease as scurvy.

6. The thanks of Government are due to Dr. French for the energetic manner in which he has discharged the duties of Health Officer of the port. The Lieutenant-Governor also acknowledges the careful supervision exercised by Dr. Pilcher, who was acting as Sanitary Commissioner during the year.

By order of the Lieutenant-Governor of Bengal,

H. J. S. COTTON,

Junior Secy. to the Govt. of Bengal.

LIBERALITY OF MR. THOMSON AND RAJAH RADHA PERSHAD SINGH.

WITH reference to your letter No. 224J, dated 7th June 1876, I am directed to say that the Lieutenant-Governor has much pleasure in acknowledging the liberal subscriptions contributed by Mr. Thomson and by Rajah Radha Pershad Singh to the improvement of the school building at Arrah.

2. I am to add that the papers on the subject will be published in the *Calcutta Gazette.*

I HAVE the honor to report, for the information of Government, that Mr. Walter Thomson, of Beehia, and Rajah Radha Pershad Singh, of Doomraon, have respectively subscribed Rs. 750 and 500 towards the fund for the enlargement of the Arrah zillah school building. I beg therefore, at the instance of the Magistrate and Vice-President, District Committee, Public Instruction, Shahabad, to recommend that, as an encouragement to other zemindars, their liberality may receive the approbation of His Honor the Lieutenant-Governor, and that an expression of His Honor's approval may be published in the *Calcutta Gazette.*

RULES FOR REGULATING THE ISSUE OF METEOROLOGICAL INSTRUMENTS.

No. 1—65, dated Simla, the 8th June 1876.

From—C. J. LYALL, Esq., Under-Secretary to the Government of India, Department of Revenue, Agriculture, and Commerce,

To—The Secretary to the Government of Bengal.

I AM directed to forward, for information and guidance a copy of rules which have been framed for regulating the issue of meteorological instruments to officers (not being officers in charge of stations already fixed by the Government of India) who may desire to record regularly meteorological observations.

Rules for regulating the issue of Meteorological Instruments.

1. The stations which have been selected by the Meteorological Reporter to the Government of India for the registry and record of meteorological observations have already been specified in the scheme submitted by Mr. Blanford with his letter dated 26th July 1875, and approved by the Government of India on the 27th September of the same year. The issue of instruments to these stations is not intended to be affected by the present rules, but will continue to be made on indents submitted through the local Meteorological Reporter and the local Government or Administration to the Government of India, who will, after consulting the Meteorological Reporter as may be necessary, direct the indents to be complied with by the Mathematical Instrument Department

2. But there may be cases in which local officers, whose place of residence is not one of the stations where the registry of observations is considered absolutely necessary to the general scheme of observation and record for the whole of India, may desire to volunteer their services as observers without remuneration from Government. In these cases Government will be willing to supply such officers with instruments, registers, &c., free of expense, and the issue of these articles will be made in the manner hereinafter described.

3. Any officer of Government who may desire to establish a meteorological observatory at a station at which no observatory at present exists, and to obtain instruments from the Government stores for that purpose, should apply, giving full particulars of his proposal, to the local Meteorological Reporter.

4. The application should set forth the special reasons, if any, which render the establishment of an observatory desirable, and should specify the building or site at which it is proposed to establish it. This should in all cases be a public building, and not a private residence. It should also specify the officer by whom the observations will be made, and state whether the appointments or offices which he holds are of such a nature as to admit of his observing regularly at the hours fixed for observations. It is essential that the recorder of the observations should be an official permanently resident at the station, or the holder of an office, the incumbent of which will be so resident for some definite term of years.

5. The local Meteorological Reporter, if he approves of the suggestion, will, after making such further enquiries as he may consider necessary, record his opinion on the proposal and submit it to the local Government with detailed recommendations as to the number and descriptions of instruments to be provided.

6. If the local Government approve of the proposal, they will submit the case to the Government of India in the Department of Revenue, Agriculture, and Commerce, and that Department will, after consultation with the Meteorological Reporter to the Government of India, issue orders on the application.

7. If the proposal is sanctioned, the requisite instruments will be supplied by the Mathematical Instrument Depôt on an indent corrected and countersigned by the Meteorological Reporter to the Government of India.

8. The local Meteorological Reporter will see that the instruments are duly verified before being issued, and will furnish to the local observer and the Meteorological Reporter to the Government of India copies of the corrections to be applied to the readings. Forms of register, printed directions, and tables for reduction, will be furnished by the local Meteorological Office.

9. The directions of the local Meteorological Reporter should be followed by the local observer as to the position and exposure of the instruments, the hours of registration, &c., and copies of all registers should be communicated to the local Meteorological Office.

10. A shed of the pattern adopted at the Government meteorological stations will be provided and kept in repair by Government, and a cage for the thermometers will be supplied with the instruments from the Mathematical Instrument Depôt.

11. The officer in charge of the observatory will grant receipts in duplicate to the Mathematical Instrument Department, and (on a separate special form) to the local Meteorological Reporter, for the instruments, &c., and he will be responsible for their safe custody. The officer receiving charge will grant a receipt in duplicate, in which the several instruments, records, books, &c., should be enumeratad: one copy of this should be forwarded to the Meteorological Reporter.

12. Annual returns of all instruments in use at observatory stations should be furnished by the observing officer at the close of each official year to the Deputy Surveyor General in charge of the Mathematical Instrument Depôt at Calcutta. In these returns all receipts and issues of instruments during the year should be duly accounted for.

REVISION OF THE BENGAL JAIL CODE.

Calcutta, the 20th June 1876.

READ—

A Resolution recorded by this Government, dated 22nd September 1864, prescribing rules under Act II (B.C.) of 1864, for the superintendence and management of the jails in the Lower Provinces.

Read also—

A letter from the Inspector-General of Jails, No. 1395, dated 3rd February 1875, submitting a draft of the first portion of a revised Code of Rules and the orders passed thereon appointing a Committee to report upon the rules.

Read—

A letter dated the 12th April, from the Committee, submitting the complete code with their observations.

The Lieutenant-Governor observes that the existing Code of Rules for the superintendence and the management of the jails in the Lower Provinces of Bengal was passed in 1864 by the then Lieutenant-Governor under the provisions of Act II (B.C.) of 1864, and after a consideration of the reports of two committees, the one appointed by the Government of India to consider the subject of jails and jail discipline throughout India, and the other appointed by the Government of Bengal to consider what special rules should be adopted in the jails of the Lower Provinces. Subsequently, certain alterations, rendered necessary by the passing of Act V (B.C.) of 1865, were introduced into the rules, which have also been further amended from time to time in accordance with the progress of legislation, the results of experience and the improved system of jail management to which much attention has been given of late years.

2. The scattered nature of the orders which have thus been issued as occasion demanded has for some time past rendered a revised edition of the Jail Code necessary, and the late Lieutenant-Governor accordingly gladly accepted the proposal made by the Inspector-General to take the work in hand. Before Mr. Heeley's departure on sick leave last year, he submitted a portion of the rules as revised by him, and the remainder of the series has been subsequently received from his successor. While the work was under preparation, the opinions of selected jail officers were invited on the general subjects to which the rules relate, and all details have been laid down in the new code in accordance with the views expressed by officers, who have gained practical experience in the administration of jails in Bengal.

3. A committee consisting of Mr. J. Crawfurd and Mr. W. Leonard was subsequently appointed by the Lieutenant-Governor to examine the code with a view chiefly to bring to notice any particulars which might require further consideration as being new or involving a departure from existing rules or practice. The committee have now submitted their report, and in addition to doing what was required of them, have made several suggestions for adding to, and amending some of, the proposed rules.

4. On a perusal of the committee's report, the Lieutenant-Governor observes that some matters of considerable importance have been dealt with *de novo* in the draft Code. Chief among these is the subject of the treatment of European prisoners in Indian jails. This is a question which has had the special attention of Sir Richard Temple, as well as of his immediate predecessor. At the time when the committee sat in 1864, this subject did not receive separate and special consideration. The defects of the existing rules in this respect, and more especially as regards those relating to the mark system, were lately noticed by the Government of India, and a suggestion was made that it was desirable that special rules for the discipline and treatment of European prisoners should be drawn up on the principles recognized in England. An attempt has been made in this direction in the section of the code devoted specially to European

prisoners, and a suitable set of "Mark Rules," based on the English system, has now been provided, entirely distinct from those applicable to natives.

5. In the Mark Rules applicable to native prisoners some alterations, which the experience gained of the working of the rules at present in force has shewn to be desirable, have been introduced. The subject of offences against jail discipline and of punishments has been carefully considered, and the rules on these, as on the other matters generally of which the code treats, have been rendered more detailed and precise. A separate set of rules has also been drawn up for the management of lock-ups, so as to remove all doubt as to which parts of the code are applicable to these institutions.

6. Generally, the Lieutenant-Governor approves of the draft Code as modified by the committee. Where questions of principle are concerned in such of the rules which have been newly introduced, the Lieutenant-Governor finds that these have been dealt with in accordance with the views which have been expressed by Government from time to time. For the most part, however, the alterations made in existing rules have reference to matters of detail only, in regard to which the Lieutenant-Governor has been able to accept the recommendations made. The thanks of the Lieutenant-Governor are due to the committee for the careful and thorough manner in which they have discharged their duty.

7. The Lieutenant-Governor is accordingly now pleased, under the authority vested in him by Act II (B.C.) of 1864 and Act V (B.C.) of 1865, and under the powers which are otherwise vested in him, to direct that the new rules, as now finally revised by him, shall be adopted for the superintendence and management of all jails in the Lower Provinces of Bengal.

By order of the Lieutenant-Governor of Bengal,

R. L. MANGLES,

Offg. Secretary to the Govt. of Bengal.

PATNA DIVN.—(*Contd.*) 30	Mosufferpore, June 17, '76	Nil.	Weather.—Hot and cloudy at times, with high east wind. The rainfall at Hajipore on the night of the 17th was 1·8 inches. Rain has fallen all over the Sitamurhee sub-division, and agricultural operations are going on. In the Hajipore and Sudder sub-divisions rain is very much wanted. In parts where rain has fallen, *bhadoe* crops have been sown. Prices of grain continue stationary.
31	Sarun, „ 17, „	·08	Weather—Hot and cloudy, with east wind prevailing. There appears to have been more or less rain in the Sewan and Gopalgunge sub-divisions, but there has been none in the Sudder sub-division. All the crops are coming on well. Lands are being prepared for the *bhadoe* crops. Cholera reported both from Sewan and Gopalgunge. Prices on the whole are favorable.

BHAGULPORE DIVN. 33	Monghyr, „ 17, „	·29	Weather—Unusually hot. There was a shower of rain this morning. More rain is wanted. Prospects of the crops are so far good.
34	Bhagulpore, „ 19,* „	2·43	Weather—Wind from north-east by day and from south by night. Heavy rain on the 18th. At Banka, on the 17th, ·47 inches. Not time yet to hear if this rain fell in the north. More rain is very generally required, and may be looked for. General health is very good. A little cholera only here and there.
35	Purneah, „ 17, „	3·26	Weather—Hot and cloudy up to Friday night, when heavy rain fell. In the Sudder the *bhadoe* has suffered from want of rain, but the *aghani* looks well. The heavy rain which fell last night and this morning will be most beneficial. Indigo prospects do not appear good. The reports from the north of the district are more favorable, as the rain has not held off so long there.
36	Sonthal Perghs. „ 18, „	1·02	Weather—The rain began on the 17th in Doomka. It has been raining steadily here for many hours. Accounts from sub-divisions dry. Ploughing is late, but going on actively. *Janera* will be late. Cholera very bad in Godda.
ORISSA.			
ORISSA DIVN. 37	Cuttack, June 10, '76	1·28	Weather—Close and hot, with clouds and rain nearly every day. More rain is wanted in the north of the district. There have been frequent showers at Cuttack up to 6th instant, generally sufficient for cultivation. Prospect of rain imminent. Cholera is still bad on the sea-coast. Elsewhere public health is good.
38	Pooree, „ 14, „	.....	Weather—Good showers everywhere up to 31st May; slight rain in most parts since. Ploughing and sowing are actively progressing.
39	Balasore, „ 16, „	·14	Weather—There have been frequent showers at Balasore up to 6th instan generally sufficient for cultivation. CHOTA NAGPORE.			
	South-Western Frontier Agency.		
40	Hazareebagh, June 16, '76	·25	Weather—Heat quite abnormal, most unusual, and unseasonable. The rainfall has been very small and very partial, being confined to that portion of the district which lies to the east below the ghâts. From nearly every thana the cry is for more rain, and everything prognosticates a short *bhadoi* crop, and at a late season. Water in wells and tanks very low and consequently bad, causing much sickness.
41	Lohardugga, „ 17, „	·62	Weather—Hot and close, variable and cloudy. In the Sudder sub-division ploughing and sowing are going on actively, but more rain is wanted, especially in some parts. In the Palamow sub-division there has been no rain during the week under review, and it is much required. Cholera has appeared in the west and north of the sub-division. There are still a few cases at Ranchi and its neighbourhood. Small-pox is still very prevalent in Palamow.
42	Singbhoom, „ 16, „	3·9	Weather—Seasonable. Agricultural operations are progressing with every hopeful prospect.
43	Manbhoom, „ 17, „	1·7	Weather—Muggy and unhealthy, but suited to cultivation, which, owing to drought, is backward this year. State and prospects of the crops are promising. The rainfall has been sufficient to enable the cultivators to plough their land, whilst it has not been so great as to swamp the seed which has been sown. More rain might bring more health, but would not at present be otherwise welcome to the ryots.

* Telegram of the 19th June, received on the same day, shows rainfall during the seven days immediately preceding.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain-gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

SUBORDINATE CIVIL SERVICE EXAMINATION, 1876.

RESOLUTION.

APPOINTMENT DEPARTMENT.

Darjeeling, the 17th June 1876.

READ again—

The report of the Superintendent of the Subordinate Civil Service Examination on the result of the examination held in 1875, and the Resolution of the Government recorded thereon, dated 22nd June 1875.

The Resolution of this Government in the General Department, dated the 10th March 1875, intimating to certain Acting Deputy Magistrates and Deputy Collectors that their retention in the public service depended entirely on their passing the examinations to which they were still respectively liable.

The Minute recorded by the Lieutenant-Governor of Bengal, dated the 25th September 1875, on the competitive examinations for admission of candidates to the Native Civil Service of Bengal.

The Notification of this Government in the General Department, dated the 23rd November 1875, promulgating the revised rules to regulate the Native Civil Service Examination to be held in 1876, and future examinations.

Read also—

Letter from the Superintendent of the Subordinate Civil Service Examination, No. 35, dated the 15th May 1876, reporting the result of the examination held in March last at Hooghly, Patna, and Cuttack.

In paragraph 9 of the Resolution dated the 22nd June 1875, it was announced that, in view of the large number of passed candidates who had yet to be provided with appointments, the Lieutenant-Governor had decided not to hold another general examination under the then existing rules until further notice. Subsequently, in his Minute dated the 25th September 1875, the Lieutenant-Governor, after reviewing the principle on which the examinations had been previously conducted for admission to the Native Civil Service, pointed out that it had resulted in the passing of a larger number of candidates than the Government could conveniently provide with appointments, and directed that, instead of all candidates being passed who came up to a given standard, the examinations in future should be competitive, that is, that a fixed number of places in the higher and in the lower classes of appointments would be prescribed, for which those candidates would be passed who came out first at the examination. It was further laid down that no candidate would be passed for the higher grade of appointments unless he obtained at least two-thirds, or for the lower grade of appointments unless he obtained at least half, of the total number of obtainable marks upon the whole examination.

2. The number of appointments offered for competition at the past examination, which is the first held under the new rules, was four in the higher and seven in the lower grade; that is, four appointments on Rs. 100 per mensem or upwards, and seven on salaries below that amount. The examination was held in March last at Hooghly, Patna, and Cuttack. Ten candidates entered as competitors, but only 8 appeared and underwent examination. Of these, 3 entered for the higher grade and 5 for the lower; but none passed for the former, and only the 5 candidates named in the margin passed for the latter grade.

1. Moonshee Azizar Ruhman.
2. Mahomed Azhar.
3. Baboo Brojonath Bhuttacharjee.
4. „ Madhub Lall.
5. „ Kumal Chunder Dutt.

3. Of these five, two—(1) Moonshee Azizar Ruhman, and (2) Mahomed Azhar, who were candidates for the lower grade—have obtained more than two-thirds of the number of marks, and are therefore, under paragraph 7 of the revised Examination Rules, eligible for appointments of the higher class. They hold, however, no University degree, nor have they either served Government for a period of six years, or been specially declared eligible for all appointments, as required by paragraph 5 of the rules: the Superintendent of the Examination proposes therefore to place them in the lower grade. Looking, however, to the very good examination which these two candidates have passed, the Lieutenant-Governor has been pleased to waive in their favor, as a special case, the objections which exist under the rules to their being placed in the higher grade, and they are accordingly declared eligible for appointment in that grade.

4. Of the remaining three who have passed, two—(3) Baboos Brojonath Bhuttacharjee, and (4) Madhub Lall—were candidates for the higher grade, but have failed to obtain the requisite number of marks; they have, however, obtained more than half the total number of marks, and the Superintendent recommends that they should be declared eligible for employment in the lower class of appointments. In making this recommendation, the Superintendent has overlooked the provisions of Rule 7 of the revised Examination Rules, which lays down that "candidates must declare whether they desire to compete for the higher or the lower class, and that a candidate for a place in the higher class will not be eligible at that examination for a place in the lower class." In consideration, however, of the recommendation of the Superintendent of the Examination, and of the fact that the number of candidates at the late examination was fewer than the number of appointments offered for competition, the Lieutenant-Governor is pleased, as a special case, to waive in their case also the objection noted above. These two candidates, together with Baboo Kumal Chunder Dutt, are therefore pronounced eligible for appointments in the lower class.

5. Of the three candidates who failed, Mahomed Nuzerooddin and Baboo Kooldeep Narain Sing already fill appointments in the Subordinate Executive Service conditionally on passing the requisite standard of examination.

Mahomed Nuzerooddin was appointed surveyor in Balasore in July 1873, subject to passing in 1874. He was subsequently granted further time for preparation till 1875, and, with reference to the result of his examination in the latter year, another year's grace was allowed. He was at the same time exempted from examination in chemistry, botany, and gymnastics. As he has now obtained passing marks in engineering and Oriya, and fair marks in all other subjects except Bengali, which is not the vernacular of his district, and as he is also favorably reported on by his superiors, the Lieutenant-Governor has been pleased, as a special case, to declare him as fully passed for the lower grade.

Baboo Kooldeep Narain Sing was appointed 2nd Grade Canoongoe in Gya in November 1873, subject to passing the Native Civil Service Examination. He was exempted from attendance at the examination of 1874 in consideration of his employment on famine relief operations. He did not attend the examination in 1875, owing, it was alleged, to ignorance of the date of the examination. On a consideration, however, of the recommendations made by the Commissioner of Patna and the Collector of Gya, the Baboo was permitted, as a special case, to retain his appointment, subject to passing at the examination in 1876, and was distinctly given to understand that no excuse would be entertained for failure on his part to attend or to pass at that examination. As he has now obtained half marks in only one subject, viz. in the vernacular, and very low marks in all other subjects, the Lieutenant-Governor directs that he be removed from his appointment.

6. In the orders passed on the report of the result of the examination in 1875, it was stated that candidates who had conditionally passed at that examination would, as a special case, be allowed to appear at the examination of 1876. Accordingly thirteen such candidates obtained permission to attend the examination, but twelve only, including five assistants of the Opium Department, who were to be examined in the special subjects of surveying botany, and chemistry, appeared and underwent the examination. All the opium assistants failed; the case of these officers will be dealt with departmentally. Of the others the three named in the margin have now finally passed for the lower grade, and are accordingly declared to have done so under the old rules. Of the remaining four, Baboo Kedar Nath Banerjee has now passed in law and botany, but is still liable to pass in chemistry before he can be considered to have passed the examination for the higher grade. Baboo Ram Lall has now passed in law and drawing, and has still to pass in surveying and mensuration before he can be considered to have passed the examination for the lower grade. This candidate is already in the service on probation, and as he is well spoken of by the officers under whom he is employed, he will

held to have passed for the lower grade on condition that he succeeds in passing completely at the next examination.

Baboo Doorga Mohun Ghose has now passed in law for the lower grade, and is still liable to pass in surveying and engineering. This candidate is also in the service, and as he is well reported of, he will be held to have passed for the higher grade, provided he passes completely at the next examination.

Abdul Mujeed was examined by mistake in Hindustani instead of in Bengali, and has passed in the former language for the lower grade, but he has failed in law and surveying. This candidate was appointed to the service in January 1874, conditionally on his passing the examination in 1875, and as he did not attend the examination held in that year, and has failed to pass at the present examination, the Lieutenant-Governor directs that he be removed from his appointment.

7. The officers named in the margin, who now hold appointments conditionally on passing the requisite standard, failed to attend the examination.

1. Eknath Sahoy, Canoongoe, Shahabad.
2. Kaliprosunno Roy Chowdry, Canoongoe, Nuddea.
3. Akhury Char Shambhujan, Canoongoe, Lohardugga.

Eknath Sahoy, Canoongoe in Shahabad, was appointed in 1873, subject to passing. He was exempted from attendance at the examination of 1874, owing to his employment on famine relief work. He did not attend the examination held in 1875, but, on the recommendation of the Commissioner of Patna, was permitted to retain his appointment and to appear at the next examination. This, however, he has not done, and the Lieutenant-Governor therefore directs that he be removed from his appointment.

Baboo Kaliprosunno Roy Chowdry was appointed Canoongoe in February 1874, subject to passing the Native Civil Service Examination. He was exempted from attendance at the examination in 1874, but was informed that no excuse for non-appearance at the examination of 1875 would be admitted. He did not, however, attend the examination in that year, and no report was received as to the cause of his absence. As he has also failed to attend the present examination, the Lieutenant-Governor directs his removal from the service.

Akhury Char Shambhujan was appointed a Canoongoe in Lohardugga in February 1874, subject to passing the Native Civil Service Examination. As he has since failed to attend any of the examinations, he must now be removed from the service.

8. In accordance with the terms of the Lieutenant-Governor's Minute of the 25th of September last, the vacancies thus caused will be filled up by the candidates who have passed the recent examination in the lower grade; the two candidates also who have now been declared to have passed for the higher grade will be immediately provided with appointments in that grade.

9. In the Resolution of the 10th March 1875, a warning was conveyed to certain Acting Deputy Magistrates and Deputy Collectors that their retention in the public service depended entirely on their passing the examination to which they were severally liable, and their attention was again drawn to the subject in the subsequent Resolution of the 22nd June 1875. Two of these officers, Baboo Koilash Chandra Chatterjee and Moulvie Muizuddin Ahmed, being employed in settlement work were not able to attend, and another, Moulvie Motiulla, was specially exempted from attendance. But none of the other officers liable to examination attended the present examination, nor has any explanation as to the cause of their absence been laid before Government. The Lieutenant-Governor now requests that Commissioners of Divisions will be good enough to submit, at an early date, a special report regarding such of these officers as may be serving within their divisions. The reasons why they failed to attend the examination should be fully explained, and Commissioners and District Officers should at the same time submit any recommendations which they may wish to make with regard to the further retention of these officers in the Government service.

10. As the Superintendent reports that the paucity in the number of candidates who entered for the competitive examination is probably owing to the fact that the new Examination Rules were not made public sufficiently

early in the year to afford candidates much time for preparation, and that the terms were not generally nor properly understood, the Commissioners of Divisions and District Officers are requested to take every opportunity of explaining the principle on which these examinations are conducted, and to notify, as widely as possible, that another examination will be held in February or March next. The precise date on which the examination will be held next year will be shortly notified, as well as the number of appointments to be competed for in each grade.

11. The thanks of Government are due to Mr. Grimley, and to the gentlemen who were associated with him in conducting the recent examination.

NOTIFICATION.

The 13th June 1876.—The following application, made by the Municipal Commissioners of Darjeeling, for a loan of Rs. 30,000 under the Local Public Works Loan Act, XXIV of 1871, for the purpose of increasing and improving the water-supply of the station, for extending the drainage, and for railing the more dangerous roads thereof, is hereby published for general information, under Section 5 of the Rules prescribed by the Government of India in the Financial Department in Notification No. 3761, dated the 15th October 1873.

R. L. MANGLES,
Offg. Secy. to the Govt. of Bengal.

We, the undersigned Municipal Commissioners of Darjeeling, under Act III (B.C.) of 1864, beg to submit the following application for a loan of Rs. 30,000, and to request that His Honor the Lieutenant-Governor will be pleased to grant it:—

1. The loan is required for the following purposes:—

I.—The increase and improvement of the water-supply of Darjeeling, which is insufficient for the purposes of the station during four months of the year, by tapping the Kotwalli Spring at a point on or near the Auckland Road, and connecting this point with the existing pipes above Woodlands, and by erecting new and improved hydrants. Estimated cost Rs. 13,000.

II.—The extension of the present drainage in the direction of the Hospital, Kohel and other hill streams, so as to prevent the accumulation of sewage in the slopes lying under the Bazar and Victoria Road. Estimated cost Rs. 8,000.

III.—The construction of railings along the more dangerous parts of the following roads:—

Auckland Road.	Birch Hill Road.
Victoria Road.	Station Roads.

Estimated cost Rs. 9,000.

2. The amount of loan now applied for is Rs. 30,000.

3. The security offered for the above will be as follows:—

	Rs.	A.	P.
I.—Proceeds of house-tax, estimated to yield ...	5,784	12	0
II.—Horse and poney-tax	600	0	0
III.—Rent of locations	4,684	0	0
IV.—Bazar rents	13,000	0	0
V.—Native village rent	1,300	0	0
VI.—Pound fines	500	0	0
Total ...	25,868	12	0

4. The house and horse taxes are levied under Act III of 1864.

The rents of locations with which those of native villages are to be classed were first assigned to the use of the Sanitarium in 1838. This was confirmed by orders of Government passed in 1854, again in orders No. 217, of the 14th January 1864, and finally in the Resolution of the Government of Bengal dated 27th June 1873.

The bazar rents are derived from buildings erected by the Municipality out of its revenues, and situated on land made over to it by Government.

The pound fines were made over to the Municipality under orders dated 14th October 1862, contained in letter No. 3625, from the Under-Secretary to the Government of Bengal to the Superintendent of Darjeeling.

5. It is proposed to take the loan in two instalments of Rs. 15,000 each, viz. Rs. 15,000 on the loan being sanctioned and Rs. 15,000 on the 1st July next. It is proposed to pay back the loan in twenty years by equal half-yearly instalments of Rs. 750, or 1,500 per annum.

In this manner the payments would be made within twenty years, as provided in Clause C, Rule X of the Rules of the 15th October 1873.

6. It is not possible to give the details required for the three years last preceding, as the limits of the Municipality were much reduced in the beginning of the year 1874-75, and the sources of income, as well as the objects of expenditure, were so much affected by this change that any attempt at comparison with former years would be deceptive.

The following table shows proceeds of the various sources of Municipal income in 1874-75 :—

	Rs.	A.	P.
House-tax	5,028	8	4
Horse-tax ...	579	0	0
Bazar rents ...	11,732	4	3
Rent of locations ...	4,484	8	0
Rent of native village	1,231	11	5
Pound fines	229	13	0
All other sources, viz. hospital subscription, sale of garden produce, &c.	4,583	2	7
Total ...	27,868	15	7

The expenditure during the year was Rs. 27,494, out of which Rs. 700 consisted of recoverable advances, and Rs. 1,583 was a contribution to a work outside the new limits of the Municipality.

7. The value of bazar buildings, &c., is about Rs. 1,50,000.

8. There are no existing prior charges upon any of the sources of income above enumerated.

3. Water shall not ordinarily be granted where the length of the water-course, from its head to its point of contact with the village boundary, would exceed two (2) miles.

4. Water for irrigation shall not be supplied, except through a water-course so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*) the water will pass without wastage;

(*b*) the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation, will not be obstructed.

5. The Divisional Canal Officer may withhold or postpone the grant of water for a crop to any cultivator whose fields he may have ascertained by personal inspection (by himself or one of his assistants) to be unprepared for irrigation by division into compartments not greater in area than 1 cottah or 1361·25 superficial feet, and by the addition of small water channels, as is customary in irrigation from wells.

Rice-fields are exempted from the operation of this rule.

NOTE.—*This rule shall only apply in those cases in which the discovery is made previous to the first watering of a crop; the water having been once given cannot be withheld for that crop, but a higher rate may be levied as provided in Rule* 25.

6. Persons desiring to construct a village channel shall prefer a written application to the Divisional or Sub-Divisional Canal Officer. In the latter case the application shall be forwarded to the Divisional Canal Officer.

7. The application, if granted, shall be subject to the Act, and also, unless otherwise specially agreed upon, be deemed granted under the following conditions:—

(*a.*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(*b.*)—That the applicants nominate a headman known or ascertained to be a substantial person possessed of property to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the water-course according to their shares, and to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the water-course.

(*c.*)—That in any case where persons desirous of taking water fail to appoint a headman, or cannot agree among themselves as to the headman, the Collector shall nominate, and the Divisional Canal Officer appoint, a headman.

(*d.*)—That the headman shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under Rule 10.

(*e.*)—That for each crop, previous to water being taken for any field, application shall be made in the prescribed form (Appendix A.) through the said headman to the Sub-Divisional Canal Officer or other officer authorized to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B.) from such officer.

(*f.*)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates difficulty in realizing water-rates, he shall intimate the same to the Collector or Sub-Deputy Collector, in whose option it shall be to require payment of water-rates in advance.

(*g.*)—That any other cultivators in the same village, able and willing to irrigate their lands from the said water-course, shall be admitted as shareholders in the water-course on paying their proportionate share (to be determined by the amount of land they hold) of the first cost and maintenance of the water-course.

(*h.*)—That all alterations in the number of shareholders, distribution of shares, or nomination of headman, shall be reported for the sanction of the Divisional Canal Officer.

8. The Divisional Canal Officer may accept the nominee of the shareholders in a water-course as "headman" of such water-course, and is empowered to pay him the fees as hereinbelow detailed, subject to the condition of satisfactory performance of duty.

9. The allowance to the headman of a water-course for duties connected with that water-course, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be 5 per cent. on the assessments of canal water-rates derived from the water-courses in his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

10. The allowance to the headman of a water-course for collecting the water-rates shall be 5 per cent. on the assessments, and shall be paid by the Collector on receipt of the full payment of demand for that crop and not otherwise, unless he can satisfy the Collector that the balance in arrear is so through no negligence of his. The payment to be made within two months of the dates named in the permit.

11. An appeal against retrenchments under Rules 9 and 10 shall lie to the Superintending Canal Officer and Commissioner respectively if preferred within thirty days of such retrenchment, and the Superintending Canal Officer or Commissioner's decision shall be final.

12. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

13. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following regulations:—

(*a.*)—No tank shall be so filled unless exclusively used for domestic purposes, and for watering cattle; such tanks are generally in the immediate neighbourhood of villages.

(*b.*)—No tank shall be so filled from which irrigation is practised.

(*c.*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d.*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer, issued on the written applications of the parties concerned. The filling of tanks can only be permitted at such times, and to such extent, as the Sub-Divisional Canal Officer approves.

(*e.*)—No tank shall be so filled unless the water-course used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f.*)—The privilege herein accorded may be suspended for twelve months for breach of these regulations, by written order of the Divisional Canal Officer, subject, however, to revision by the Superintending Engineer, whose decision shall be final.

14. The Divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any water-course when he has satisfied himself by personal inspection (by himself or one of his Assistants) that the water-course is not maintained in proper repair. Immediate report of any such closure shall be made to the Superintending Canal Officer, and the special ground for stoppage explained.

15. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the headmen of water-courses. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Officer to stop any supply of water in case of pressing emergency.

16. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

17. Claims to remission, under section 76 (*b*), of ordinary charges payable for use of canal water shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any portion of the charges. All applications for remission of water-rate shall be made to the Divisional Canal Officer at least seven days previous to the cutting of the crop. An appeal from the Divisional Canal Officer's decision shall lie to the Superintending Canal Officer, whose order shall be final.

18. Before awarding compensation under section 76 (*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. Under this rule an appeal shall lie to the Commissioner of the Division, whose order shall be final.

19. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follows :—

22. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate.

23. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

24. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

25. 26. HIGH COURT NOTICES.

Circular Orders issued by Authority of the High Court of Judicature at Fort William in Bengal.

CRIMINAL.

No. 2, dated the 5th May 1876.

SECTION 301 of the Criminal Procedure Code directs the Court of Session, on receipt of the order of the High Court confirming a sentence of death, to issue a warrant to the officer in charge of the jail in which the prisoner is confined, to cause the sentence to be carried into execution. As it is expedient to provide that a sufficient but not excessive interval should elapse between the passing and the execution of such sentences, the High Court directs that the date named by the Sessions Court, in its warrant, for the execution of a sentence of death shall be not less than fourteen, nor more than twenty-one, days from the date of the issue of such warrant.

CIVIL.

No. 9, dated 12th May 1876.

The accompanying copy of a correspondence regarding evasions of the Stamp Law by native money-lenders in certain classes of loan transactions, is circulated for the information and attention of all Civil Courts.

From H. LEE, ESQ., *Acting Assistant Secretary to the Government of Bengal, to the Registrar of the High Court of Judicature, Calcutta,*—(*No.* 1018, *dated* 13*th April* 1876.)

IN continuation of this office letter No. 374, dated the 9th February 1876, I am directed to forward the accompanying copy of a letter* from the Board of Revenue, on the subject of evasions of the stamp law in certain classes of loan transactions by native money-lenders, and to request that the Hon'ble Judges may be moved to direct the issue of the necessary instructions to the Subordinate Civil Courts, on the points indicated by the Board of Revenue, for the prevention of the evasions in question.

* No. 222B., dated 23rd March 1876.

From W. H. GRIMLEY, ESQ., *Officiating Secretary to the Board of Revenue, to the Secretary to the Government of Bengal, Revenue Department—No.* 222*B., dated Fort William, the* 23*rd March* 1876.

IN paragraph 69 of the Board's report on the administration of the Stamp Department for 1874-75, an instance is related of the manner in which the stamp laws are evaded by native bankers in loan transactions. In the case in question the money-lender was in the habit of advancing money without drawing up a formal bond, but a book was kept by him, made up of a number of loose pages stitched together with a piece of string. On each page was a loan transaction, thus: I, A. B., have this day borrowed of you, C. D., Rs. 100, with interest at 4 per cent. per mensem;—signed A. B., witnesses E. F., &c.; loan to be repaid in such and such instalments; and so on. Each leaf of the book related to a separate loan transaction, and could be removed at will. In case of default, the book, or leaf of the book, was produced in Court in support of a suit by C. D. against A. B. This is said to be a type of similar transactions of daily occurrence in many parts of Bengal, and it is asserted that Civil Courts frequently give decrees on such informal documents, sometimes without any enquiry as to the absence of a stamp, and sometimes by admitting the document in evidence after payment of penalty duty under the provisions of section 20 of the Stamp Act XVIII of 1869. Either course is apparently illegal. The Member in charge is advised by the Advocate-General that each page of the loan book as above described constitutes a promissory note as defined in section 3, clause 25 of the Stamp Act, and is therefore liable to stamp duty under article 2 of schedule I, annexed to the Act; under section 18 they are not therefore admissible in evidence without being duly stamped. Nor is it possible to correct the omission of stamp duty by payment to the Civil Court of penalty duty under section 20, inasmuch as it is expressly declared in section 28 that the provisions of section 20 do not apply to promissory notes.

2. Mr. Money thinks that it would perhaps have some effect in checking evasions of stamp duty on loan transactions if the attention of the High Court were invited to the existence of the practice as above described, with the view of such instructions being issued to the Subordinate Civil Courts as will prevent the acceptance in evidence of unstamped pages of an account book in lieu of a sufficiently stamped promissory note, and also prevent their admission, on payment of penalty duty, under section 20 of the Stamp Act.

3. I am further directed to suggest that the attention of Courts may be drawn to the fact that in very many instances promissory notes require to be engrossed on paper of a special kind, bearing stamps of a peculiar device. Under section 5 of the Act, all promissory notes, except those chargeable with the duty of one anna, must necessarily be written either on impressed paper, *i.e.*, paper impressed with a stamp, or upon paper upon which the stamp has been denoted in a peculiar manner by the Superintendent of Stamps or the Collector. Two samples, A and B, of impressed paper are enclosed. Specimen A, however, has ceased to be manufactured, and will only continue in use till present stocks are exhausted. A specimen (C) of denoted paper is also enclosed. This paper is denoted by the Superintendent of Stamps, Calcutta, and is sold to the public. The Collector of Calcutta also "denotes" by means of a circular steel die, but that process is effected after the body of the deed is written, and there is no mistaking it. Consequently, in certain cases, a promissory note inscribed on a leaf of an account book, even though it were stamped with an adhesive stamp, is not admissible in evidence as being duly stamped in accordance with the law.

No. 10, *dated the* 5*th June* 1876.

Instances are frequently coming to the notice of the High Court in which cases have been remanded on appeal, although the state of facts contemplated by Section 351, Code of Civil Procedure, did not exist, and the order of demand was therefore contrary to law, and in some of these cases the evidence was actually complete.

2. Appellate Courts, in some instances, thus get rid of appeals, merely deciding a single, and perhaps very simple, point and so obtaining credit for the decision of a large number of cases; while, on the other hand, parties to the suits are put to the expense and trouble of a new trial in the lower Court, and probably of a fresh appeal on the new decision.

3. Such a practice, wherever it prevails, must be forthwith discontinued. The proper mode of proceeding will be found laid down in Sections 351 to 357 of the Civil Procedure Code, and Circular Order No. 36, dated the 12th September 1866; and the occurrence of any instances such as have necessitated the issue of this order will be very seriously noticed by the High Court.

No. 11, *dated the* 5*th June* 1876.

It has been brought to the notice of the High Court that Commissions under Section 175 of the Civil Procedure Code are not unfrequently addressed by various inferior Courts in the Lower Provinces to the Judicial Commissioner of Oudh. This practice is improper and must be discontinued. Commissions should in future be addressed either to the nearest local Court, if known, or to the Court of the Deputy Commissioner, which is in Oudh the District Court, or in Lucknow, to that of the Civil Judge.

Provided that the total number of Commissioners holding office in any first class Municipality shall not at any time be less than seven or more than thirty; and in any second class Municipality shall not at any time be less than four or more than twenty;

Provided also that not more than one-fourth of the whole number of Commissioners so appointed shall be persons holding in the judicial, police, or revenue departments of the Government service salaried offices of which the functions are exercised within the district in which the Municipality is situated, unless such persons be elected Commissioners under the next succeeding section.

In case such whole number is not evenly divisible by four, the one-fourth shall be ascertained by taking the number next below the whole number, which is evenly divisible by four, as the number to be divided.

Election of Commissioners.

16. The Lieutenant-Governor may at any time direct that the whole or any number of the Commissioners to be appointed under the last preceding section shall be elected, and may lay down such rules as he shall think fit, not being inconsistent with the provisions of this Act, in respect of the qualifications required to entitle any person to stand as a candidate for such election, and to entitle any person to vote for any such candidate, and in respect of the mode of election; and the Lieutenant-Governor may at any time cancel any rule made by him under this section.

But the elective system shall not be introduced into any Municipality unless the Magistrate certifies that at least one-third of the rate-payers residing therein have signed a petition praying for its introduction.

Ex-officio Commissioners.

17. In addition to the Commissioners appointed or elected as hereinbefore provided, the Magistrate of the district, the Magistrate of the division, and the medical officer in charge of the district shall be *ex-officio* Commissioners of every Municipality situated within their respective jurisdictions; and the Lieutenant-Governor may direct, by notification in the *Calcutta Gazette*, that

79. When it has been determined that a tax shall be imposed on persons occupying holdings within the Municipality, according to their circumstances and property, the Commissioners, after making such enquiries as may be necessary, shall cause to be prepared an assessment list which shall contain the following particulars, and any others which the Commissioners may think proper to include:—

(*a*) name of the street or road in which the holding is situated;

(*b*) number of the holding on the register;

(*c*) name of person occupying the holding, whether such person be assessed or exempted from assessment;

(*d*) description of the holding, and of the property within the Municipality, with profession or business of the person assessed;

(*e*) amount of annual assessment;

(*f*) amount of quarterly instalment;

(*g*) if the occupier of the holding is exempted from assessment, a note to that effect.

The tax upon persons shall be payable in quarterly instalments by persons occupying holdings.

Such tax shall not be assessed or levied on any person in respect of the occupation of arable lands or of any building which is used exclusively as a place of worship.

Duration of assessment.

80. Save as is herein otherwise provided, every assessment of the tax upon persons, shall take effect from the beginning of the year next following that in which the notice required by section one hundred and three is published, and shall be valid for three years and until the beginning of the year next after the date on which a new assessment or valuation may be published, or until the assessment and valuation be revised and amended.

Provided that when Chapters I, II, and V are extended to any place, the first assessment may take effect from the beginning of the quarter next following that in which the said notice shall be published.

Provided also that whenever the tax on persons which was assessed under the District Towns' Act, 1868, remains in force in any second class Municipality and is levied therein under the provisions of section seven, the Commissioners may revise such assessment, or may make a new assessment, and may order that such revision or new assessment shall take effect from the beginning of the year next following the date on which the notice required by section one hundred and three is published.

Assessment of public buildings.

81. In any Municipality in which the tax on persons is imposed, no tax shall be assessed on any person in respect of his occupation of any holding which is the property of Government and used for the purposes of a public building, but a rate of seven and a half per centum shall be assessed on the annual value of every such holding, to be ascertained in the manner prescribed by section ninety-two, and such rate shall be payable by the Government.

Procedure if aggregate amount of rates assessed on any person exceeds Rs. 84 per annum.

82. Whenever any tax shall have been assessed on any person in respect of his occupation of two or more holdings, and the aggregate of the amount so assessed upon him shall exceed eighty-four rupees per annum, such person may, within fifteen days of the publication of the notice required by section one hundred and three, apply to the Commissioners to cancel such assessment, and to substitute for the total amount of tax so assessed upon him in respect of the said holdings a rate to be calculated at seven and a half per centum on the annual value of such holdings; and the Commissioners shall thereupon substitute such rate; and for the purpose of calculating the amount of such rate, shall determine the annual value of the said holdings in the manner prescribed by section ninety-two.

Every rate imposed under this section shall be payable by the occupier of the holdings so rated.

Power of exemption.

83. The Commissioners may exempt from assessment any person who may by them be deemed too poor to pay the tax; but the name of the occupier of every holding shall be included in the assessment list, whether he be assessed or exempted from assessment.

Power to apply for reduction of assessment in altered circumstances.

84. Any person mentioned in the assessment list, who shall at any time after the publication thereof have ceased to occupy any holding in respect of the occupation

of which he has been assessed, or whose means and property in respect of which he has been so assessed shall have been reduced, may apply to the Commissioners to exempt him from his assessment or to revise the same.

Power to alter assessment.

85. The Commissioners may, at any time after the publication of the notice required by section one hundred and three, assess any person who was without authority omitted from the assessment list, or whose liability to assessment has accrued thereafter, and may enhance any assessment which appears to them to be inadequate, and to have been so made owing to mistake or fraud.

Any assessment or enhancement made under this section shall take effect from the beginning of the quarter next following that in which such assessment or enhancement is made.

Procedure on change of occupation.

86. The Commissioners may at any time substitute for any name mentioned in the assessment list the name of any new occupier of a holding, and may assess the tax on such person, and such person shall be liable to pay such assessment from the date on which his occupation of the holding commenced.

Assessment on vacant holdings when to cease.

87. If any holding shall become vacant in the course of the year, the assessment on account of the occupation of such holding shall cease to have effect from the first day of the quarter next following that in which it became vacant.

Of the Rate on the value of Holdings.

Tax to be paid by quarterly instalments.

88. When it has been determined that a rate shall be imposed on the annual value of holdings, the Commissioners, after making such enquiries as may be necessary, shall determine the valuation of all holdings within the Municipality as hereinafter provided.

Duration of assessment.

89. Save as is herein otherwise provided, such valuation shall be valid for three years from the date on which it first takes effect in the Municipality, and until the beginning of the year next after the date on which a new valuation may be made, or until the valuation be revised and amended:

Provided that whenever the tax on the value of holdings which was imposed and assessed under the District Municipal Improvement Act, 1864, remains in force in any Municipality and is levied thereon under the provisions of section seven, the Commissioners may revise the valuation and rating according to which such tax is being levied, or may make a new valuation and rating, and may order that such revision or such new valuation and rating shall take effect from the beginning of the year next following the date on which the notice required by section one hundred and three is published.

Buildings exempted from tax.

90. The rate on the value of holdings shall not be assessed or levied on any holding which is used exclusively as a place of worship.

What returns may be required for ascertaining annual value.

91. The Commissioners, in order to prepare the valuation list, may, whenever they think fit, by notice, require the owners or occupiers of all holdings to furnish them with returns of the rent or annual value thereof, and the Commissioners, or any person authorized by them in that behalf, at any time between sunrise and sunset, may enter, inspect, and measure any such holding after having given forty-eight hours' previous notice of their intention to the occupier thereof.

Annual value of holding how to be ascertained.

92. The gross annual rent at which any holding may be reasonably expected to let, shall be deemed to be the annual value thereof, and such value shall accordingly be determined by the Commissioners, and entered in the valuation list.

Determination of rate of tax on holdings.

93. Subject to the provisions of section seventy-seven, the Commissioners, at a meeting to be held before the close of the year next preceding the year to which the rate will apply, shall determine the percentage on the valuation of holdings at which the rate shall be levied, and the percentage so fixed shall remain in force until the order of the Commissioners determining such percentage shall be rescinded, and until the Commissioners at a meeting shall determine some other percentage on the valuation of holdings at which the rate will be levied from the beginning of the next year.

Provided that when Chapters I, II, and V are extended to any place, the first rate may be levied from the beginning of the quarter next after that in which the percentage has been fixed by the Commissioners at a meeting.

Publication of valuation and rating list.

94. As soon as possible after the percentage at which the rate is to be levied on the next year shall have been determined under the last preceding section, the Commissioners shall cause to be prepared a valuation and rating list, which shall contain the following particulars, and any others which the Commissioners may think proper to include:—

(*a*) name of the street or road in which the holding is situated;
(*b*) number of the holding on the register;
(*c*) description of the holding;
(*d*) annual value of the holding;
(*e*) name of owner;
(*f*) amount of rate payable for the year;

The rate upon holdings shall be payable in quarterly instalments by the owner of the holding.

Power to assess upon a house consolidated tax for house and land on which it stands.

95. If any house belongs to one owner, and the land on which it stands and the adjacent land which is usually occupied therewith, belongs to another, the Commissioners may value such house and land together and may impose thereon one consolidated rate.

The total amount of the rates shall be payable by the owner of the house, who shall thereafter be entitled to deduct from the rent which he pays for the land such proportion of the rate so

paid by him as is equal to the proportion which such rent bears to the annual value of the holding.

If the owner of the house and the owner of the land do not agree in respect of the proportion of the rate so deducted by the owner of the house, the Commissioners shall, on the application of either party, make an award declaring the amount payable by each, and such award shall be final.

Tax due from non-resident owner may be recovered from occupier, and deducted by him from his rent.

96. If the sum due from the owner of any holding remains unpaid after the notice of demand has been duly served, and such owner be not resident within the Municipality, or the place of abode of such owner be unknown, the same may be recovered from the occupier for the time being of such holding, who may deduct, from the next and following payments of his rent, the amount which may be so paid by or recovered from him:

Provided that no arrear of rate, which has remained due from the owner of any holding for more than one year, shall be so recovered from the occupier thereof.

Power of Commissioners in cases of excessive hardship.

97. Whenever, from the circumstances of the case, the levy of the rate on any holding in the Municipality would be productive of excessive hardship to the person liable to pay the same, the Commissioners at a meeting may reduce the amount payable on account of such holding, or may remit the same.

Application for reduction of assessment.

98. If the value of any holding shall be diminished from any cause beyond the control of the owner thereof, the owner thereof may apply for reduction of the valuation of the same.

Power to revise valuation and assessment.

99. The Commissioners may, at any time after the publication of the notice required by section one hundred and three, value and rate any holding which was without authority omitted from the valuation and rating list, or which has become liable to valuation and rating after the publication thereof, and may enhance the valuation and rating of any holding which may appear to have been insufficiently valued or rated through mistake or fraud; and may re-value and re-assess the rate on any holding the value of which has been increased by additions or alterations to any building thereon.

Any rate imposed or enhancement made under this section shall take effect from the beginning of the quarter next following that in which the rate shall be imposed or enhancement made.

Power to revise assessment list.

100. The Commissioners may at any time substitute for any name mentioned in the valuation and rating list the name of any person to whom any holding mentioned therein shall have been transferred.

Such person shall be liable to pay the rate payable on such holding from the first day of the quarter next after the date of the transfer.

Remission or refund on account of vacant holdings.

101. When any holding has been vacant for sixty or more consecutive days during any year, the Commissioners shall remit, and, if the rate has been paid, shall refund, one-half of so much of the rate of that year as may be proportionate to the number of days the said holding has remained unoccupied; provided that the owner of such holding, or his agent, has given to the Commissioners notice in writing of the vacancy thereof.

The amount of tax to be remitted or refunded shall be calculated from the date of the delivery of such notice.

Penalty.

102. Whoever, being the owner of any holding for which a remission or refund of the rate has been made under the last preceding section, fails to give notice of the re-occupation of such holding within ten days of such re-occupation, shall be liable to a fine not exceeding three times the amount of rate payable quarterly on such holding.

Of general provisions relating to the tax on persons and the rate on holdings and to the recovery of the same.

Publication of notice of assessments.

103. When the assessment list of the tax upon persons or the valuation and rating list of the rate on the annual value of holdings shall have been prepared or revised, the Chairman shall sign the same, and shall cause it to be deposited in the office of the Commissioners, and shall cause the notice in form (A) or the notice in form (B) of the first schedule (as the case may be) to be published in the manner prescribed by section three hundred and sixty-five.

Application for review.

104. Any person who is dissatisfied with the amount assessed upon him, or with the valuation or rating of any holding,

or who disputes his occupation of any holding, or his liability to be assessed, or rated,

may apply to the Commissioners to review the amount of assessment, valuation, or rating, or to exempt him from the assessment or rate.

Procedure upon review.

105. Every application presented under the last preceding section shall be heard and determined by not less than three Commissioners, who shall be appointed on that behalf by the Chairman. The Commissioners so appointed, after making such inquiries as they may deem necessary, may pass such order as they shall think fit in respect of such application.

The decision of such Commissioners, or of a majority thereof, in such cases shall be final.

Limitation of time for application of review.

106. Unless good cause shall be shown to the satisfaction of such Commissioners for extending the time allowed, and save as is otherwise expressly provided in this Act, no such application shall be received after the expiration of one month from the date of publication of the notice required by section one hundred and three relating to the list containing the assessment, valuation, or rating in respect of which the application is made, or after the expiration of fifteen days from the date of service of the first notice of demand for payment at the rate in respect of which the application is made, whichever period shall last expire.

Assessment to be questioned only under Act.

107. No objection shall be taken to any assessment or rating, nor shall the liability of any person to be assessed or rated be questioned in any other manner or by any other authority than in this Act is provided.

Office hours for payment of taxes.

108. By notification to be posted up in their office, the Commissioners shall declare at what hours of each day (not being a Sunday or other recognized holiday) the office shall be open for the receipt of money.

Tax payable in advance.

109. The amount due by any person on account of the tax on persons, or the rate on holdings, shall be deemed to be the amount entered in the lists the notice relating to which is published under section one hundred and three, unless the amount entered in such lists is subsequently altered by the Commissioners as provided in this Act, in which case the amount to which the assessment or rating is so altered shall be deemed to be the amount due.

Every instalment of such tax or rate shall be deemed to be due on the first day of the quarter in respect of which such instalment is payable.

Receipts to be given.

110. For all sums paid on account of any tax or rate under this Act, a receipt stating the amount and the tax or rate on account of which it is paid shall be given, signed by the tax-collector or by some other officer authorized by the Commissioners to grant such receipts.

Bill and notice of demand to be presented after one month.

111. At any time within six months after any sum has become due on account of any tax or rate, the Commissioners shall cause to be served upon the person liable to the payment thereof a bill for the said sum, which shall contain a statement of the period and of the tax or rate on account of which the charge is made.

If the amount mentioned in such bill be not paid on presentation thereof, a notice of demand in the form marked (A) in the second schedule, with copy of the bill appended thereto, shall be served on the person liable to pay the same, and such notice of demand may be served at any subsequent time, provided that no charge shall be made in respect of the service of such notice.

Such notice shall be signed by the Chairman or an officer authorized in that behalf, and shall be served by a person authorized to receive payment.

If not paid in fifteen days, process of distress may issue.

112. If any person, after service upon him of such bill and notice, shall not, within fifteen days of the service of such notice or from the date of any order made on an application for review under section one hundred and five, pay the sum due, either to the Commissioners at their office, or to some person authorized by them to receive the money, or show to the Commissioners sufficient cause for not paying the same, the amount of the arrear due, with costs on the scale shown in the table of fees marked (B) in the second schedule, may at any time within three months after the date of service of the said notice, or of the order made on an application to review as aforesaid, be levied by distress and sale of any moveable property belonging to the defaulter, except ploughs, plough-cattle, tools or implements of trade or agriculture, wherever found, or of any such moveable property, subject to the same exceptions, which may be found within the holding in respect of which such defaulter is liable to such tax or rate.

If the said property or any part thereof belong to any person other than the defaulter, the defaulter shall be liable to indemnify the owner thereof for any damage he may sustain by reason of such distress, or by reason of any payment he may make to avoid such distress or any sale under the same.

Distress how to be made.

113. Every warrant of distress and sale under the last preceding section shall be issued by the Commissioners, and shall be in the form marked (C) in the second schedule.

Distress shall be made by actual seizure of moveable property, and the officer charged with the execution of the warrant shall be responsible for the due custody thereof.

Such officer shall make an inventory of all moveable property seized under the warrant, and shall give not less than ten days' previous notice of the sale, and of the time and place thereof, by beat of drum, in the Municipality or Ward in which the property is situated, and by serving on the defaulter a notice in the form marked (D) in the second schedule:

Provided that if the property is of a perishable nature, it may be sold, with the consent of the defaulter, at any time after the expiry of twenty-four hours from the seizure.

Officer may break open door.

114. The officer charged with the execution of the warrant may, under the special order of the Commissioners, between sunrise and sunset, break open any outer or inner door or window of a house, in order to make the distress, if he has reasonable ground for believing that such house contains any moveable property belonging to the defaulter, and if, after notification of his authority and purpose and demand of admittance duly made, he cannot otherwise obtain admittance.

Provided that he shall not enter or break open the door of any room appropriated for the zanáná, or residence of women, which by the usage of the country is considered private, except after three hours' notice and opportunity given for the retirement of the women.

Sale how to be conducted.

115. If the sum due be not paid with costs before the time fixed for the sale, or the warrant be not discharged or suspended by the Commissioners, the moveable property seized shall be sold by auction, at the time and place specified, in the most public manner possible, and the proceeds shall be applied in discharge of the arrears and costs; and the surplus, if any, shall be returned on demand to the person in possession of the moveable property at the time of the seizure; or if unclaimed for a period of twelve months, shall be transferred to the Municipal Fund.

Return of sales.

The tax-collector or other officer authorized in that behalf shall make a return of all such sales to the Commissioners in the form marked (E) in the second schedule.

117. The Commissioners shall cause a regular account to be kept of all distresses levied and sales made for the recovery of taxes under this Act.

Commissioners to keep account of distresses and sales.

118. If no sufficient goods or chattels belonging to a defaulter, or being upon the premises in respect of which he is assessed or rated, can be found within the Municipality, the Magistrate may, on the application of the Commissioners, issue his warrant to any officer of his Court for the distress and sale of any personal property or effects belonging to the defaulter within any other part of the jurisdiction of the Magistrate, or for the distress and sale of any personal property belonging to the defaulter within the jurisdiction of any other Magistrate whatsoever, and such other Magistrate shall endorse the warrant so issued, and cause it to be executed, and the amount, if levied, to be remitted to the Magistrate issuing the warrant, who shall remit the same to the Commissioners.

Sale of property beyond limits of Municipality.

119. No distress or sale made under this Act shall be deemed unlawful, nor shall any party making the same be deemed a trespasser on account of any error, defect, or want of form in the bill, notice, summons, warrant of distress, inventory, or other proceeding relating thereto.

Distress or sale not unlawful for want of form.

120. Instead of proceeding by distress and sale, or in case of failure to realize thereby the whole or any part of any tax, the Commissioners may sue the person liable to pay the same in any court of competent jurisdiction.

Commissioners may bring suit instead of distraining, or on failure of distress.

121. The Commissioners may order to be struck off the books the amount of any tax or rate which may appear to them to be irrecoverable.

Irrecoverable taxes.

Of the Tax on Carriages, Horses, and other Animals.

122. When it has been determined that a tax on carriages, horses, and other animals specified in the third schedule shall be imposed, the Commissioners at a meeting shall make an order that every carriage, horse, and every other animal of the kind specified in the third schedule which is kept or habitually used within, or which is let for hire within or without the Municipality, and habitually used within it, shall pay the tax, and shall cause such order to be published in the manner prescribed by section three hundred and sixty-five.

Tax on carriages, horses, and other animals.

Such order shall be published at least one month before the beginning of the half-year in which such tax shall first take effect; and shall specify at what rates, not exceeding the rates given in the third schedule, such tax shall be levied.

(*f*) carriages, the wheels of which do not exceed twenty-four inches in diameter;

(*g*) animals under eleven hands in height;

(*h*) carriages or animals kept for sale by any *bond fide* dealer in such carriages or animals, and not used for any other purpose.

123. Any order of the Commissioners imposing a tax under the last preceding section shall continue in force until rescinded, and the tax shall be levied at the rates specified in the order published as aforesaid, unless and until the Commissioners at a meeting, held not less than fifteen days before the end of the year, make and publish an order specifying any different rates at which the tax shall be payable for the ensuing year.

Tax so fixed to continue in force until altered.

124. In any Municipality in which a tax has been imposed under the last preceding section, the owner of every carriage, horse, and other animal specified in the third schedule shall, within the first month of each half-year, forward to the Commissioners a statement in writing, signed by him, containing a description of the carriages, horses, and other animals liable to the tax for which he is bound to take out a license.

Licenses how to be obtained.

Such owner shall at the same time pay to the Commissioners such sum as shall be payable by him for the current half-year for the carriages, horses, and other animals specified in such statement, according to the rates specified in any order for the time being in force under the two last preceding sections.

125. If any person acquires possession at any time after the commencement of any half-year, of any carriage, horse, or other animal specified in the third schedule, in respect of which no license has been given for such half-year, he shall forward a statement as above required within one month of the date on which he may have acquired possession thereof, and shall pay such amount of the tax as shall bear the same proportion to the whole tax for the half-year as the unexpired portion of the half-year bears to the half-year; and such amount shall be calculated from the date on which such person may have acquired possession as aforesaid.

Proportionate tax on carriages, &c., acquired during half-year.

126. On receiving the amount of the tax due as aforesaid, the Commissioners, or some person authorised by them in that behalf, shall give to the person paying the same a license for the several carriages, horses, and other animals for the period in respect of which the amount is received.

On payment of tax, Commissioners to give a license.

Such license shall be for the current half-year and no longer.

Carriage, &c., liable to the tax although the owner be absent.

127. Whenever the owner of any carriage, horse, or other animal liable to pay the said tax is not resident within the limits of the Municipality to the Commissioners of which the tax is due, the person in whose immediate possession the carriage, horse, or other animal is for the time being kept shall take out a license for the same.

Penalty.

128. Whoever keeps or is in possession of any carriage, horse, or other animal without the license required by the three last preceding sections, shall be liable to a fine not exceeding three times the amount payable by him in respect of such license, exclusive of the amount so payable.

Commissioners may compound with livery stable-keepers.

129. The Commissioners at their discretion may compound, for any period not exceeding one year, with livery stable-keepers and other persons keeping carriages or animals for hire, for a certain sum to be paid for the carriages or animals so kept by such person, in lieu of the tax at the rates specified in any order made by the Commissioners under sections one hundred and twenty-two and one hundred and twenty-three.

List of persons licensed to be prepared.

130. The Commissioners shall from time to time cause to be prepared and entered in a book, to be kept by them, and to be open to the inspection of any person interested therein, a list of the persons to whom, during the then current half-year, a license has been given, and of the carriages, horses, and other animals in respect of which they have paid the tax.

Power to inspect stable, &c., and to summon persons liable to the payment of the tax.

131. The Commissioners, or any person authorized by them in that behalf, may at any time between sunrise and sunset enter and inspect any stable or coach-house, or any place wherein they may have reason to believe that there is any carriage, horse, or other animal liable to the tax for which a license has not been duly taken out.

And the Commissioners may summon any person whom they have reason to believe to be liable to the payment of any such tax, or any servant of such person, and may examine such person or servant as to the number and description of the carriages, horses, and other animals in respect of which such person is liable to be taxed.

Refund of tax in certain cases.

132. On proof being given to the satisfaction of the Commissioners that a carriage, horse, or other animal for which a license has been taken out for any half-year has ceased to be kept or to be used within the Municipality during the course of such half-year, the Commissioners shall order a refund of so much of the tax for the half-year as shall bear the same proportion to the whole tax for the half-year as the period during which such carriage, horse, or other animal has not been kept or used in the Municipality bears to the half-year; but no such refund shall be allowed unless notice be given to the Commissioners within one month of the time when such use of such carriage, horse, or other animal ceased, and the Commissioners shall pass no order for refund until after the close of the half-year in respect of which the refund is claimed

Of the Registration of Carts.

Registration and number of carts.

133. The Commissioners at a meeting may make and publish an order that every cart, which is kept or habitually used within, or which is let for hire within or without the Municipality and habitually used within it, shall be registered by the Commissioners with the name and residence of the owner, and shall bear the number of registration in such manner as the said Commissioners shall direct.

This section shall not apply to carts—

(*a*) which are the property of the Government or of the Municipality;

(*b*) which are kept without the limits of the Municipality, and are only temporarily and casually used within such limits;

(*c*) which are kept in Howrah or within the Suburbs of Calcutta.

Fee for registration.

134. The registration of carts under the last preceding section shall be made, and the numbers assigned yearly or half-yearly, upon such days as the Commissioners shall notify, and such fee as they shall from time to time fix and notify, not exceeding four rupees if the registration has effect for a year, and not exceeding two rupees if the registration has effect for half a year, shall be paid for each registration.

Proportionate payment of fee.

135. Any person becoming possessed of any cart which has not been registered for the then current period of registration, shall register the same within one month of the date on which he may have become possessed thereof, and the Commissioners shall grant registration in any such case on payment of such amount of the fee as shall bear the same proportion to the whole fee for the current period of registration as the unexpired portion of the current period of registration bears to the whole of such period; and such fee shall be calculated from the date on which such person may have become possessed as aforesaid.

Transfer of ownership.

136. When the ownership of any registered cart is transferred within any period of registration, it shall be registered anew within one month of the transfer in the name of the person to whom it has been transferred, and a fee not exceeding four annas shall be paid for every such last-mentioned registration.

Penalty.

137. Whoever keeps or is in possession of a cart not duly registered as required by the three last preceding sections, shall be liable to a fine not exceeding three times the amount payable by him in respect of such registration, exclusive of the amount so payable; and whoever, being the owner or driver of any cart, shall fail to affix thereto the registration number as required by section one hundred and thirty-three, shall be liable to a fine not exceeding five rupees.

Seizure and sale of unregistered cart.

138. If any person owns or keeps any cart hereinbefore required to be registered without having caused the same to be registered, the Commissioners, or any person authorized by them in that behalf, may seize and detain such cart (provided

the same be not employed at the time of seizure in the conveyance of any passengers or goods) together with the animals drawing the same, and all police officers are required, on the application of the Commissioners, or of any servant of the Commissioners duly authorized in that behalf, to assist in the said seizure.

After such seizure the Commissioners shall forthwith issue a notice in writing that after the expiration of ten days they will sell such vehicle and animals by auction at such place as they may state in the notice; and if any registration fee, together with the cost arising from such seizure and custody, remains unpaid for ten days after the issue of such notice, the Commissioners may sell the property seized for payment of the said fee, and of all expenses occasioned by such non-payment, seizure, custody, and sale.

Any balance that may remain out of the proceeds of the sale shall be returned, on demand, if made within twelve months, to the owner of the property, and if unclaimed after such period, shall be credited to the Municipal Fund.

Provided that if at any time before the sale is concluded the person whose cart has been seized shall tender to the Commissioners, or the person authorized by them to sell the cart, the amount of all the expenses incurred, and the registration fee payable by him, the Commissioners shall forthwith release the cart so seized.

Notwithstanding anything contained in this section, the surplus of the sale proceeds of a cart seized under this section may be devoted to the payment of any fine imposed under the last preceding section; and any cart which has been seized under this section may be sold for the realization of any such fine.

Of Tolls on Ferries.

Existing public ferries.

139. The Lieutenant-Governor may, with the consent of the Commissioners, make over to the Commissioners any existing public ferry within or adjacent to the limits of the Municipality, to be administered by such Municipality until the Lieutenant-Governor shall otherwise direct.

Every ferry while so administered shall be deemed to be a municipal ferry, and the profits derivable therefrom, or such part of the profits as the Lieutenant-Governor shall order, shall be carried to the credit of the Municipal Fund.

Other ferries may be declared to be municipal.

140. The Commissioners may also, with the sanction of the Lieutenant-Governor, declare that any other ferry within or adjacent to the limits of the Municipality is a municipal ferry, and the profits derivable therefrom shall thenceforward be carried to the credit of the Municipal Fund:

provided that due compensation shall be made by the Municipality to any person for the loss which he may have sustained in consequence of such ferry being declared to be a municipal ferry.

The amount of compensation due in such cases shall be ascertained and awarded by the Magistrate under the provisions of section 4 of Bengal Act I of 1866 (*to amend certain provisions of Regulation VI of* 1819) or any similar law for the time being in force.

Duties of Commissioners in regard to such ferries.

277. The Commissioners, or any person authorized by them in that behalf, may, at all reasonable times, enter into and inspect any place kept for the sale of drugs, or in which drugs are sold, and if they have reason to suspect that any drug in the said place is adulterated in such a manner as to lessen its efficacy, to change its operation, or to render it noxious, may remove the same on giving a receipt therefor, specifying the nature and quantity of the drug removed, and its approximate value; and if it appear to a Magistrate that the said drug removed as aforesaid is adulterated as aforesaid, he may order the same to be destroyed, or to be so disposed of as to him may seem fit.

If any building is attached to and used in connection with a burning-ground closed under this section, the Commissioners shall, if the owner of such building make an application to them in that behalf, take over the same on payment of a fair price therefor.

Prohibition to bury or burn in unregistered ground.

281. After the expiration of the three months as mentioned in section two hundred and seventy-eight, no corpse shall be buried or burnt otherwise than in a place which is borne on the register of the Commissioners as an open burial or burning-ground; but the Commissioners may grant special permission for a corpse to be buried or burnt elsewhere.

Commissioners may, in certain cases, order the use of slaughter-houses, and the carrying on of dangerous and offensive trades, to be discontinued.

The Commissioners may from time to time, at a meeting as aforesaid, repeal, alter, or add to such bye-laws.

Provided that no fee or toll which is not expressly sanctioned by this Act shall be levied under any such bye-law.

314. No bye-law, and no repeal, alteration of, or addition to, any bye-law, shall have effect until the same has been confirmed by the Lieutenant-Governor, and until the expiration of one month after the same has been published as provided by section three hundred and sixty-five, and no bye-law, and no alteration of, or addition to, any bye-law shall be sanctioned by the Lieutenant-Governor otherwise than on the recommendation of the Commissioners at a meeting.

Provided that the failure to take out any license under this Chapter shall be deemed to be a continuing offence until the expiration of the period for which such license is required to be taken out.

318. If the Commissioner of the division in which the Municipality is situated shall have reason to believe that the Commissioners have failed to pay for the municipal police as required by this Chapter, or have failed to maintain within the limits of the Municipality any road which without such limits is maintained by a District Committee under the Road Cess Act, 1871,

Procedure if Commissioners fail to pay for police, maintain roads, &c.

or have failed to maintain in proper order the roads within the Municipality;

or have failed to make adequate and suitable provision for the cleaning and the conservancy of the Municipality to an extent likely to be prejudicial to the health of the inhabitants of any part thereof,

CHAPTER III.

Of Unions.

319. In every place which, in accordance with the provisions of section three, becomes a Union under this Chapter, every person who has been appointed to be a member of a panchait for such place under Act XX of 1856, and is serving as such member at the commencement of this Act, shall be deemed to be a member of the panchait duly appointed for such Union; and in every such Union any tax which may have been imposed and assessed under the provisions of the said Act shall be deemed to have been imposed and assessed under this Chapter, and may be levied as in this Chapter provided.

Extent and commencement of this Chapter.

320. The provisions of this Chapter may be extended by the Lieutenant-Governor, by notification published in the *Calcutta Gazette*, to any city, town, suburb or bazar not being within the limits of the ordinary original jurisdiction of the High Court at Fort William in Bengal, from such date as may be specified therein, and shall thereupon come into force in such city, town, suburb or bazar on the date so specified.

Lieutenant-Governor may extend Chapter.

321. The Lieutenant-Governor may, by like notification, at any time vary the limits of any Union, or withdraw any Union from the operation of this Chapter.

Lieutenant-Governor may vary limits of town or withdraw it from operation of Chapter.

322. The Lieutenant-Governor may, by notification to be published in the said *Gazette*, form into a Union for the purposes of this Chapter any city, town, suburb, or bazar, or any part or parts of a city, town, suburb, or bazar with any other city, town, suburb, or bazar, or part or parts of a city town, suburb, or bazar; but no agricultural village intervening shall be included in such Union.

Unions may be formed.

323. For the purposes of this Chapter, the Lieutenant-Governor may define and declare the limits of any Union formed under the last preceding section, and all occupiers of houses within any such Union shall be liable to be assessed according to the provisions of this Chapter for the purposes mentioned in the next succeeding section; but such Union shall not include any agricultural village.

Government may define limits of towns, &c.

324. The Magistrate of every Union shall, by ways and means in and by this Chapter provided, cause to be levied and raised in such Union the amount of the expense of the police to be borne under the provisions of this Chapter by such Union, and the cost of raising such amount; and the Magistrate may by the same ways and means cause to be levied such further sum as to him shall seem meet, and apply the same in cleansing such Union, in providing drinking-water or in lighting or otherwise improving the same:

Magistrate to raise amount of expense.

Provided that the aggregate amount to be raised under the provisions of this section shall not exceed the average rate of one rupee and eight annas per annum for each house, and the amount assessed in respect of any one house shall not be more than the pay of a police officer of the lowest grade who is appointed to such Union.

325. All sums raised, levied, or received by the Magistrate, and all fines paid or levied under this Chapter, and all other sums, which the Lieutenant-Governor may direct, shall constitute a fund which shall be called the Union Fund of the Union on account of which they are raised, levied, or received; and all expenditure authorized by this Chapter shall be made from such fund.

The Town Fund.

326. The Magistrate shall, before the close of each year, cause to be prepared in detail estimates showing the probable receipts and expenditure of the Union during the ensuing year, and shall lay such estimates before the Commissioner of the division, who may accept, amend, or reject the same.

Magistrate may cause estimates to be prepared.

327. The tax to be levied in any Union for the purposes of this Chapter shall be an assessment according to the circumstances and the property to be protected of the persons liable to the same.

Nature of the tax to be levied.

328. For the purposes hereinafter mentioned, the Magistrate shall constitute and appoint a panchait for each Union, or, when he may see fit to divide any Union into convenient wards, for each ward thereof; and shall issue a certificate of appointment, specifying the names, residence, business, or other description of the persons appointed, and the period for which the appointment is made.

Constitution of panchaits.

Every panchait shall consist of three or five respectable persons residing or carrying on business in or near to any such Union, or in or near to any such ward thereof:

Provided that instead of any one such person, the Magistrate may appoint any person whom he may think fit to be a member of the panchait notwithstanding such person may not reside or carry on business in or near to such Union, or in or near to any such ward thereof.

Duties of panchait.

329. The panchait so appointed, or the majority of them, shall, once in every year, if required so to do by the Magistrate, prepare and make, in accordance with the rules laid down in the requisition, an assessment upon the several persons liable to be assessed in respect of their occupation of property within the Union, or any ward thereof as aforesaid for which the panchait shall be appointed, and shall enter the same in a list which shall specify the names of the several occupiers of property within such Union or ward thereof liable to be assessed under the provisions of this Chapter, the trade, business, or other description of such occupier, the property occupied, and the amount payable monthly by such occupier.

Form of Magistrate's requisition.

330. The requisition of the Magistrate to the panchait to make out such list shall be in the form marked (A) set forth in the fourth schedule, or to the like effect.

Panchait may revise existing assessment.

331. The panchait shall, if required by the Magistrate so to do, instead of making a new assessment, revise and amend the assessment then in force.

Magistrate may amend and settle assessment as revised by the panchait.

332. When an assessment shall have been made or revised, as the case may be, the panchait shall forward to the Magistrate the list containing the same, and the Magistrate shall revise and, if necessary, amend and settle it.

Magistrate may exempt occupiers unable to pay the assessment.

333. The Magistrate may, at his discretion, exempt from the assessment any occupier who may be unable from poverty to pay the same.

Notice of assessment to be published.

334. When the assessment shall have been settled, the Magistrate shall sign the list, and shall cause a copy thereof to be prepared in the form (B) in the fourth schedule, and deposited in his office, and a notification in the form (C) of the said schedule or to the like effect, and written in the language which is ordinarily spoken in such Union, to be published in the manner provided in section three hundred and sixty-five.

Assessment to stand good for one year.

335. Unless revised or corrected as hereinafter provided, every assessment made under this Chapter shall stand good for one whole year, and until a new one is made.

Change of occupation before a new assessment.

In case the occupier of any property included in any assessment shall be changed before a new assessment is made, the new occupier, instead of the former occupier thereof, shall be liable in respect of such property for any portion of the assessment which shall have become payable during his occupation; and, after notification to such person, the Magistrate may cause his name to be substituted in the said list for the name of the former occupier.

Revised assessment to be deemed a new one.

Every assessment which shall be revised according to the provisions of section three hundred and thirty-one shall be deemed a new assessment;

Provided that if no new assessment is made within the first three months of any year, a notification of the list of the previous year shall be published as required by section three hundred and thirty-four, and such list shall thereupon be deemed to be the assessment for the current year, and shall be open to appeal under the next succeeding section.

Appeal from assessment.

336. Any person assessed who shall be dissatisfied with his assessment or who shall dispute his occupation of any property, or his liability to be assessed, may appeal to the Magistrate; and the Magistrate, after making such inquiries as he deems necessary, by examination of the appellant on oath or solemn affirmation, or otherwise, may confirm the assessment or amend the same.

The decision of the Magistrate in such cases shall be final, and no objection shall be taken to any assessment, nor shall the liability of any person to be assessed be questioned in any other manner or by any other court:

Provided that no appeal shall be received after the expiration of one month from the time of the publication of the notification prescribed by section three hundred and thirty-four, or of the notification of the substitution of the name of an occupier under section three hundred and thirty-five, unless the Magistrate, upon reasonable cause shown, shall extend the time for receiving such appeal.

Commissioner of division may direct revision of assessment.

337. The Commissioner of the division, with the consent of the Lieutenant-Governor, may at any time direct the Magistrate to revise the assessment of any Union, or ward thereof as aforesaid, specifying the reasons which, in his opinion, render such revision necessary, and the Magistrate shall, according to such direction, revise and, if necessary, amend the same.

Magistrate may direct revision of assessment at any time of the year for reasons to be stated.

338. The Magistrate may require the panchait to revise the assessment at any period during the year, but on every such occasion he shall address a written order to the panchait specifying the reasons which render such revision necessary, and requiring an amended return within a stated period.

Publication of assessment as revised under the two last sections.

339. Whenever any assessment is revised during the year as provided in the two last preceding sections, a copy of such revised list shall be prepared and deposited as provided in section three hundred and thirty-four, and a notification shall be published in the manner directed in the said section. And all objections to such revised assessment shall be made and dealt with in the manner prescribed by section three hundred and thirty-five.

340. If the persons appointed a panchait, or a majority of them, refuse or omit, for a period of fifteen days after the receipt of an order from the Magistrate, to perform the duties required of them, the Magistrate may himself make or revise the assessment, and may enforce the same as if it had been made or revised in the first instance by the panchait:

If panchait refuse or omit to act, Magistrate may assume their functions.

Provided that the functions of the panchait shall not thereby absolutely cease and determine, but may be resumed at any time, only not so as to invalidate any act done by the Magistrate under this section.

341. Every panchait shall be appointed for the period of one year, and any person who has served as member of a panchait during one year may be reappointed so to serve during the following year.

Duration of panchait and service thereon.

342. NOTIFICATION.

The 13th June 1876.—The following application, made by the Municipal Commissioners of Darjeeling, for a loan of Rs. 30,000 under the Local Public Works Loan Act, XXIV of 1871, for the purpose of increasing and improving the water-supply of the station, for extending the drainage, and for railing the more dangerous roads thereof, is hereby published for general information, under Section 5 of the Rules prescribed by the Government of India in the Financial Department in Notification No. 3761, dated the 15th October 1873.

R. L. MANGLES,
Offg. Secy. to the Govt. of Bengal.

We, the undersigned Municipal Commissioners of Darjeeling, under Act III (B.C.) of 1864, beg to submit the following application for a loan of Rs. 30,000, and to request that His Honor the Lieutenant-Governor will be pleased to grant it:—

1. The loan is required for the following purposes:—

I.—The increase and improvement of the water-supply of Darjeeling, which is insufficient for the purposes of the station during four months of the year, by tapping the Kotwalli Spring at a point on or near the Auckland Road, and connecting this point with the existing pipes above Woodlands, and by erecting new and improved hydrants. Estimated cost Rs. 13,000.

II.—The extension of the present drainage in the direction of the Hospital, Kohel and other hill streams, so as to prevent the accumulation of sewage in the slopes lying under the Bazar and Victoria Road. Estimated cost Rs. 8,000.

III.—The construction of railings along the more dangerous parts of the following roads:—

Auckland Road.	Birch Hill Road.
Victoria Road.	Station Roads.

Estimated cost Rs. 9,000.

2. The amount of loan now applied for is Rs. 30,000.

3. The security offered for the above will be as follows:—

	Rs.	A.	P.
I.—Proceeds of house-tax, estimated to yield ...	5,784	12	0
II.—Horse and poney-tax	600	0	0
III.—Rent of locations	4,684	0	0
IV.—Bazar rents	13,000	0	0
V.—Native village rent	1,300	0	0
VI.—Pound fines	500	0	0
Total ...	25,868	12	0

4. The house and horse taxes are levied under Act III of 1864.

The rents of locations with which those of native villages are to be classed were first assigned to the use of the Sanitarium in 1838. This was confirmed by orders of Government passed in 1854, again in orders No. 217, of the 14th January 1864, and finally in the Resolution of the Government of Bengal dated 27th June 1873.

The bazar rents are derived from buildings erected by the Municipality out of its revenues, and situated on land made over to it by Government.

The pound fines were made over to the Municipality under orders dated 14th October 1862, contained in letter No. 3625, from the Under-Secretary to the Government of Bengal to the Superintendent of Darjeeling.

5. It is proposed to take the loan in two instalments of Rs. 15,000 each, viz. Rs. 15,000 on the loan being sanctioned and Rs. 15,000 on the 1st July next. It is proposed to pay back the loan in twenty years by equal half-yearly instalments of Rs. 750, or 1,500 per annum.

In this manner the payments would be made within twenty years, as provided in Clause C, Rule X of the Rules of the 15th October 1873.

6. It is not possible to give the details required for the three years last preceding, as the limits of the Municipality were much reduced in the beginning of the year 1874-75, and the sources of income, as well as the objects of expenditure, were so much affected by this change that any attempt at comparison with former years would be deceptive.

The following table shows proceeds of the various sources of Municipal income in 1874-75 :—

	Rs.	A.	P.
House-tax	5,028	8	4
Horse-tax	579	0	0
Bazar rents	11,732	4	3
Rent of locations	4,484	8	0
Rent of native village	1,231	11	5
Pound fines	229	13	0
All other sources, viz. hospital subscription, sale of garden produce, &c.	4,583	2	7
Total ...	27,868	15	7

The expenditure during the year was Rs. 27,494, out of which Rs. 700 consisted of recoverable advances, and Rs. 1,583 was a contribution to a work outside the new limits of the Municipality.

7. The value of bazar buildings, &c., is about Rs. 1,50,000.

8. There are no existing prior charges upon any of the sources of income above enumerated.

REVISED DRAFT RULES PROPOSED UNDER ACT III (B.C.) OF 1876.

No. 200

NOTIFICATION.—IRRIGATION BRANCH.

Dated the 13*th June* 1876.

IN exercise of the powers conferred on him by Act III B.C. of 1876, the Hon'ble the Lieutenant-Governor is pleased to direct the publication of the following draft rules for the Sone Canals.

Rules under Act III B.C. of 1876.

1. The Collector, before awarding compensation under sections 16 and 17 of the Act, shall obtain the written opinion of the Superintending Canal Officer, which shall form part of the record of the proceedings.

2. Water shall not be granted where, in the opinion of the Divisional Canal Officer, loss from wastage is likely to occur. From the decision of the Divisional Canal Officer an appeal shall lie to the Superintending Canal Officer, whose order shall be final.

3. Water shall not ordinarily be granted where the length of the water-course, from its head to its point of contact with the village boundary, would exceed two (2) miles.

4. Water for irrigation shall not be supplied, except through a water-course so constructed and maintained that, in the opinion of the Divisional Canal Officer—

(*a*) the water will pass without wastage ;

(*b*) the existing necessary lines of communication, the flow of drainage water, and the passage of water for irrigation, will not be obstructed.

5. The Divisional Canal Officer may withhold or postpone the grant of water for a crop to any cultivator whose fields he may have ascertained by personal inspection (by himself or one of his assistants) to be unprepared for irrigation by division into compartments not greater in area than 1 cottah or 1361·25 superficial [illegible] by the addition of small water channels, as is customary in irrigation [illegible]

Rice-fields are exempted from the operation of this rule.

NOTE.—*This rule shall only apply in those cases in which the discovery is made previous to the first watering of a crop; the water having been once given cannot be withheld for that crop, but a higher rate may be levied as provided in Rule* 25.

6. Persons desiring to construct a village channel shall prefer a written application to the Divisional or Sub-Divisional Canal Officer. In the latter case the application shall be forwarded to the Divisional Canal Officer.

7. The application, if granted, shall be subject to the Act, and also, unless otherwise specially agreed upon, be deemed granted under the following conditions:—

(*a.*)—That the water supplied shall not be used for other purposes than irrigation without the written consent of the Divisional or Sub-Divisional Canal Officer.

(*b.*)—That the applicants nominate a headman known or ascertained to be a substantial person possessed of property to attend to their interests, to receive and carry out the orders of the Canal Officers, to distribute the water among the shareholders in the water-course according to their shares, and to collect and pay in to the Collector, or other duly authorized person, all water-rates leviable on the lands watered from the water-course.

(*c.*)—That in any case where persons desirous of taking water fail to appoint a headman, or cannot agree among themselves as to the headman, the Collector shall nominate, and the Divisional Canal Officer appoint, a headman.

(*d.*)—That the headman shall furnish security for the payment of all sums realized by him, the stamp and registration fees on security bonds being deducted from the percentage allowed under Rule 10.

(*e.*)—That for each crop, previous to water being taken for any field, application shall be made in the prescribed form (Appendix A.) through the said headman to the Sub-Divisional Canal Officer or other officer authorized to receive such applications, and that no water shall be taken until after the receipt of a "permit" (Appendix B.) from such officer.

(*f.*)—That in any case where the Divisional Canal Officer, owing to the known recusancy of any village, or of any class of cultivators, anticipates difficulty in realizing water-rates, he shall intimate the same to the Collector or Sub-Deputy Collector, in whose option it shall be to require payment of water-rates in advance.

(*g.*)—That any other cultivators in the same village, able and willing to irrigate their lands from the said water-course, shall be admitted as shareholders in the water-course on paying their proportionate share (to be determined by the amount of land they hold) of the first cost and maintenance of the water-course.

(*h.*)—That all alterations in the number of shareholders, distribution of shares, or nomination of headman, shall be reported for the sanction of the Divisional Canal Officer.

8. The Divisional Canal Officer may accept the nominee of the shareholders in a water-course as "headman" of such water-course, and is empowered to pay him the fees as hereinbelow detailed, subject to the condition of satisfactory performance of duty.

9. The allowance to the headman of a water-course for duties connected with that water-course, such as arranging that it shall be kept in proper repair, seeing that no lands obtain water without a regular "permit," distributing the water to the shareholders, seeing to the outlet being closed according to the orders of the Divisional Canal Officer, and generally assisting the officers of the Irrigation Department, shall be 5 per cent. on the assessments of canal water-rates derived from the water-courses in his charge. The Divisional Canal Officer may retrench the whole or any part of the fees under this rule in the event of the conditions not being complied with.

10. The allowance to the headman of a water-course for collecting the water-rates shall be 5 per cent. on the assessments, and shall be paid by the Collector on receipt of the full payment of demand for that crop and not otherwise, unless he can satisfy the Collector that the balance in arrear is so through no negligence of his. The payment to be made within two months of the dates named in the permit.

11. An appeal against retrenchments under Rules 9 and 10 shall lie to the Superintending Canal Officer and Commissioner respectively if preferred within thirty days of such retrenchment, and the Superintending Canal Officer or Commissioner's decision shall be final.

12. Contracts between the Divisional Canal Officer on the part of Government, and private individuals, for the use of water as a motive power, or for any other purpose whatsoever not included in the published schedule of rates, shall, if for any period not exceeding one year, require the previous sanction of the Superintending Canal Officer.

If for longer periods, such contracts shall be submitted for the sanction of the Lieutenant-Governor in the Irrigation Department.

13. Tanks may be filled with canal water without charge, and without reference to the area irrigated in any village, whenever water can be made available without injury to the cultivation dependent on any canal, under the following regulations:—

(*a.*)—No tank shall be so filled unless exclusively used for domestic purposes, and for watering cattle; such tanks are generally in the immediate neighbourhood of villages.

(*b.*)—No tank shall be so filled from which irrigation is practised.

(*c.*)—No tank shall be so filled which, intercepting any line of drainage, is liable to overflow from accumulation of water derived from natural causes.

(*d.*)—No tank shall be so filled except on the written order of the Sub-Divisional Canal Officer, issued on the written applications of the parties concerned. The filling of tanks can only be permitted at such times, and to such extent, as the Sub-Divisional Canal Officer approves.

(*e.*)—No tank shall be so filled unless the water-course used to fill it shall be shown to the satisfaction of the Sub-Divisional Canal Officer to be in a sound condition when the application is made.

(*f.*)—The privilege herein accorded may be suspended for twelve months for breach of these regulations, by written order of the Divisional Canal Officer, subject, however, to revision by the Superintending Engineer, whose decision shall be final.

14. The Divisional Canal Officer may, by written order under section 76 (*a*) (ii), stop the supply to any water-course when he has satisfied himself by personal inspection (by himself or one of his Assistants) that the water-course is not maintained in proper repair. Immediate report of any such closure shall be made to the Superintending Canal Officer, and the special ground for stoppage explained.

15. The Divisional Canal Officer may, under section 76 (*a*) (iii), regulate the distribution of the available water in proportion to the average area irrigated from the several outlets, or in proportion to the quantities of water contracted for, and may close the outlets in rotation as shall be necessary.

Such periodical closures shall not extend beyond ten consecutive days, and shall be notified to the headmen of water-courses. For longer closures the authority of the Superintending Canal Officer is required.

Nothing in the above rules shall be taken to affect the power of the Superintending or any Divisional Officer to stop any supply of water in case of pressing emergency.

16. The water-gauges on distributaries or other channels shall be held to give authoritative data for all calculations of discharge required to verify claims for remission of water-rate on account of loss of water.

17. Claims to remission, under section 76 (*b*), of ordinary charges payable for use of canal water shall only be admitted on proof of actual loss caused by the stoppage of supply. On proof of such loss the Divisional Canal Officer may remit the whole or any portion of the charges. All applications for remission of water-rate shall be made to the Divisional Canal Officer at least seven days previous to the cutting of the crop. An appeal from the Divisional Canal Officer's decision shall lie to the Superintending Canal Officer, whose order shall be final.

18. Before awarding compensation under section 76 (*c*), the Collector shall obtain the written opinion of the Divisional Canal Officer, and such opinion shall form part of the record of the proceedings. Under this rule an appeal shall lie to the Commissioner of the Division, whose order shall be final.

19. Under section 78 of the Act, the rates chargeable per acre on the different descriptions of crops are fixed for three years, viz. from 1st June 1876 to the 1st June 1879, and are as follows:—

WATER-RATES.

Sone Canals.

Class.	Nature of Crop.	Flow Irrigation per			Lift Irrigation per			Per
		Cottah.	Beegha.	Acre.	Cottah.	Beegha.	Acre.	
		Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	
II.	Sugarcane, tobacco, indigo, opium, and gardens	0 2 6	3 2 0	5 0 0	0 1 8		3 5 4	Crop.
	Rice, vegetables, water-nuts, wheat, barley, cotton, and all crops not otherwise specified	0 1 3	1 9 0	2 8 0	0 0 10		1 10 8	Do.

NOTE.

1 Cottah ... ... = 1361·25 superficial feet.
1 Beegha ... ... = 27225·00 " "
Acre ... ... = 43560·00 " "

20. If only a portion of a field be irrigated, the water-rate shall be chargeable on the whole field, unless such portion shall have been clearly demarcated, previous to the admission of the water, by a ridge not less than half a foot high.

21. When a portion of a field has been irrigated with canal water, and a portion with well or reservoir water, the whole field shall be liable for canal water-rate, unless a clearly distinguishable boundary exists between the two portions.

22. If well or reservoir water is conveyed in the same channel as canal water, the whole of the irrigation from that channel shall be liable to canal water-rate.

23. Irrigation from natural or artificial escape channels, when the supply is permanent, shall be governed by the same rules as irrigation from other parts of the canal.

24. Irrigation from such channels, when the supply is intermittent, may be allowed at such reduced rates as shall from time to time be fixed by the Lieutenant-Governor.

25. Persons irrigating lands from a canal without a written permit for water for such lands, or taking water at times prohibited by proper authority, shall be chargeable with double water-rates on the area irrigated, in addition to such penalties as may be imposed under sections 93 and 94 of the Act.

26. The charge leviable for water suffered to run to waste on uncultivated lands shall be calculated at the highest rate specified in the schedule, viz. five rupees per acre on the area flooded; provided that in every such case the Divisional Canal Officer may impose a lower charge if he thinks fit.

27. If mixed crops be grown in the same field, the water-rate shall be calculated on the highest rated crop.

28. When the original crop sown in a canal-irrigated field fails and is ploughed up and a fresh crop is sown in the same season, the water-rates leviable shall be due on the second crop.

29. When a field is irrigated which has not been prepared by division into compartments and by the addition of small water channels as prescribed in Rule 5, an additional charge may be imposed, equal to half the amount of water-rate leviable on the field. In each case the Divisional or Sub-Divisional Officer must certify that he personally examined the field, and that it was not properly prepared for irrigation according to the terms of the rule.

30. The amounts demandable for water-rate shall be determined and apportioned by the Divisional Canal Officer.

31. All water-rates shall become due on the dates noted on the "permits," viz. the dates on which the crops ordinarily come to maturity, and are as follows:—

Water-rate on spring crops,—wheat, barley, peas, poppy, &c.,—shall become due on 31st March.

Water-rate on summer crops,—cheena, &c.,—shall become due on 30th June.

Water-rate on bhadoi crops,—seera rice, Indian-corn, murwa, &c.,—shall become due on 31st October.

Water-rate on annual and winter crops,—aghani rice, joaur, &c.,—on 31st December.

and shall be paid within one month of such dates.

32. In the case of lands held on Báoli tenures, half the water rates shall be recoverable from the zemindar or landlord.

33. Collection of all water-rates will be made by the Collector strictly in accordance with the statement of demands furnished to him by the Divisional Canal Officer, in such form as shall from time to time be sanctioned by the Lieutenant-Governor.

34. The Collector will make the collections through the Deputy Collectors attached to each division of the canal, and the Subordinate Canal Revenue Establishment.

35. Objections to the demand on the score of short supply, or of matters affecting the Irrigation Department, addressed to the Collector, shall be referred by him to the Canal Divisional Officer. Meanwhile the collection of the demand shall not be suspended.

36 Claims for remission so referred by the Collector, and admitted by the Divisional Canal Officer, shall be reported by him for the sanction of the Superintending Canal Officer.

37. A remission statement signed by the Superintending Canal Officer, shall be sufficient authority for a refund by the Collector.

38. If the decision of the Divisional Canal Officer uphold the original demand, an appeal may be made to the Superintending Canal Officer, provided that it is preferred within forty days from the issue of the order. The decision of the Superintending Canal Officer shall be final.

39. In cases in which the water-rate is irrecoverable, from the absconding or bankruptcy of the defaulter, or when the question at issue does not depend on the canal supply, or the action of the Irrigation Department, the Collector will obtain sanction to remission of canal demands from the Commissioner of the Division. All such remissions shall be reported at the close of each official year to the Divisional Canal Officer.

40. If a cultivator is dissatisfied with the entries made against him in the "permit" (Appendix B), whether as to the fact of the land having been charged "flow" instead of "lift," or as to the measurements and entries of class of crop, he must lodge a complaint, either personally or through the headman of his water-course, with the Divisional or Sub-Divisional Canal Officer within fifteen days of the issue of the permit.

41. No person, without the permission in writing of the Divisional or Sub-Divisional Canal Officers, shall pass, or shall cause any animal or vehicle to pass, on or across any of the works, banks, or channels of a canal or drainage work after he has been desired to desist therefrom, excepting upon such bridges, fords, and ferries, and their approaches, as are provided by the Divisional Canal Officer.

42. No Canal Officer, unless specially exempted by the Lieutenant-Governor, shall have any interest in the distribution of water from any of the canals, or purchase or bid for any Government property sold thereon, either in his own name, or in the name of another, or jointly, or in shares with others.

Postage-duties chargeable upon letters and other articles sent through the post from any part of British India to any country belonging to the General Postal Union.

	Each letter per ½ oz.	Printed Papers, Legal and Commercial Documents, and Patterns.	
		Each newspaper, per 4 ozs.	Each packet of printed papers, &c., per 2 ozs.

viâ Brindisi	6	2	
viâ Southampton	5	1	1½
to Aden, Malta, and Gibraltar	4	1	1½
to any country belonging to the Union not coming under the foregoing heads			1½

2. The higher rates thus prescribed for correspondence sent *viâ* Brindisi to the United Kingdom and countries served through it result from the conveyance of such mails by special train through Italy and France; and the lower rates of letter postage for Aden, Malta, and Gibraltar are those hitherto in force, which it is not the object of the present arrangement to increase.

3. The annexed Schedule shows in detail the countries coming under the foregoing heads, as well as the routes and other particulars connected with the transmission of correspondence to them.

Printed Papers and Legal and Commercial Documents.

(N.B.—Attention is drawn to the limit of weight, *viz.* 2 lb, fixed for a packet of printed papers or legal and commercial documents. *See Schedule.*)

4. Under the head of "Printed Papers" are included newspapers, stitched or bound books, pamphlets, music, visiting cards, catalogues, prospectuses, announcements and notices of various kinds, whether printed, engraved or lithographed and photographs. Under the

head of "Legal and Commercial Documents" are included acts or deeds of all kinds drawn up by public functionaries, invoices, policies of insurance, copies or extracts of deeds under private seal, written upon stamped or unstamped paper, scores or sheets of manuscript music, *and in general all manuscript papers and documents which have not the character of an actual and personal correspondence.*

5. Articles posted as "Printed Papers" or as "Legal and Commercial Documents" must be placed under bands or simply folded, so as to admit of the contents being easily examined, and, excepting as follows, "Printed Papers" must contain no manuscript writing, figure, or mark whatever:—

(*a.*) Proofs of printing or of music may bear corrections made with a pen, relating exclusively to the text or to the execution of the work. Manuscript may be annexed to such proofs.

(*b.*) Circulars, Notices, &c., may bear the signature of the sender, with his trade or profession, and may also show the place of origin and the date.

(*c.*) A book may contain a manuscript dedication or a complimentary inscription from the author.

(*d.*) Passages in the text to which it is desired to call attention may be marked with a simple stroke.

(*e.*) Prices may be added in manuscript or otherwise on printed or lithographed stock and share lists, prices current, and market reports.

(*f.*) No other manuscript additions may be made; nor are typographical additions allowed, if they tend to take from the packet its general character.

6. Articles posted as "Printed Papers" or "Legal and Commercial Documents" which do not fulfil the foregoing conditions, or are not fully prepaid, will be treated as unpaid letters, with the sole exception of newspapers and printed papers, such as circulars, notices, &c., which will, in such cases, not be forwarded.

Patterns of Merchandise.

(*N. B.*—Attention is drawn to the limit of weight, *viz.* 8 ounces, fixed for a packet of patterns. *See Schedule.*)

7. Patterns of merchandise are chargeable with the reduced postage under the following conditions:—

(*a.*) They must be placed in bags, or in boxes, or envelopes removeable so as to admit of an easy examination of their contents.

(*b.*) They must not have any saleable value, or bear any manuscript writing other than the name or the trade or profession of the sender, the address of the person for whom the packet is intended, a manufacturer's or trade mark, numbers and prices.

8. Patterns of merchandise may not be introduced into a letter, or into a packet of any other kind, unless they form an integral part of a particular work.

9. Patterns not packed in accordance with these conditions, or not fully prepaid, will be treated as unpaid letters, except those which are valuable. The latter will not be forwarded, nor any of which the conveyance would be attended with risk or danger.

Money, Jewels, &c., and articles liable to customs duty.

10. No letter or packet containing gold or silver money, jewels, or precious articles, or any article liable to customs duty may be sent through the post under this Notification.

Correspondence received from countries belonging to the Union.

11. Although post cards are not among the classes of correspondence, for the transmission of which by post from India provision has been made, those received from other countries of the Union will be delivered in India as paid letters.

12. Letters received from any country of the Union as unpaid or insufficiently paid will be charged, on delivery, at the rate which would be chargeable on a letter posted in India for that country by the same route, together with an additional rate of two and a half annas per half ounce. The value of any stamps (as marked by the country of origin) which may be affixed to an insufficiently paid letter will be deducted from the amount thus chargeable, fractions of an anna in the remainder being raised to one anna.

13. No additional postage will henceforth be charged for the redirection of letters or other articles sent through the post from any foreign country, whether belonging to the General Postal Union or not, to any place in British India.

The panchait so appointed, or the majority of them, shall, once in every year, if required so to do by the Magistrate, prepare and make, in accordance with the rules laid down in the requisition, an assessment upon the several persons liable to be assessed in respect of their occupation of property within the Union, or any ward thereof as aforesaid for which the panchait shall be appointed, and shall enter the same in a list which shall specify the names of the several occupiers of property within such Union or ward thereof liable to be assessed under the provisions of this Chapter, the trade, business, or other description of such occupier, the property occupied, and the amount payable monthly by such occupier.

Form of Magistrate's requisition.

330. The requisition of the Magistrate to the panchait to make out such list shall be in the form marked (A) set forth in the fourth schedule, or to the like effect.

Panchait may revise existing assessment.

331. The panchait shall, if required by the Magistrate so to do, instead of making a new assessment, revise and amend the assessment then in force.

Magistrate may amend and settle assessment as revised by the panchait.

332. When an assessment shall have been made or revised, as the case may be, the panchait shall forward to the Magistrate the list containing the same, and the Magistrate shall revise and, if necessary, amend and settle it.

Magistrate may exempt occupiers unable to pay the assessment.

333. The Magistrate may, at his discretion, exempt from the assessment any occupier who may be unable from poverty to pay the same.

Notice of assessment to be published.

334. When the assessment shall have been settled, the Magistrate shall sign the list, and shall cause a copy thereof to be prepared in the form (B) in the fourth schedule, and deposited in his office, and a notification in the form (C) of the said schedule or to the like effect, and written in the language which is ordinarily spoken in such Union, to be published in the manner provided in section three hundred and sixty-five:

335. Unless revised or corrected as hereinafter provided, every assessment made under this Chapter shall stand good for one whole year, and until a new one is made.

Change of occupation before a new assessment.

In case the occupier of any property included in any assessment shall be changed before a new assessment is made, the new occupier, instead of the former occupier thereof, shall be liable in respect of such property for any portion of the assessment which shall have become payable during his occupation; and, after notification to such person, the Magistrate may cause his name to be substituted in the said list for the name of the former occupier.

Revised assessment to be deemed a new one.

Every assessment which shall be revised according to the provisions of section three hundred and thirty-one shall be deemed a new assessment;

Provided that if no new assessment is made within the first three months of any year, a notification of the list of the previous year shall be published as required by section three hundred and thirty-four, and such list shall thereupon be deemed to be the assessment for the current year, and shall be open to appeal under the next succeeding section.

Appeal from assessment.

336. Any person assessed who shall be dissatisfied with his assessment or who shall dispute his occupation of any property, or his liability to be assessed, may appeal to the Magistrate; and the Magistrate, after making such inquiries as he deems necessary, by examination of the appellant on oath or solemn affirmation, or otherwise, may confirm the assessment or amend the same.

The decision of the Magistrate in such cases shall be final, and no objection shall be taken to any assessment, nor shall the liability of any person to be assessed be questioned in any other manner or by any other court:

Provided that no appeal shall be received after the expiration of one month from the time of the publication of the notification prescribed by section three hundred and thirty-four, or of the notification of the substitution of the name of an occupier under section three hundred and thirty-five, unless the Magistrate, upon reasonable cause shown, shall extend the time for receiving such appeal.

Commissioner of division may direct revision of assessment.

337. The Commissioner of the division, with the consent of the Lieutenant-Governor, may at any time direct the Magistrate to revise the assessment of any Union, or ward thereof as aforesaid, specifying the reasons which, in his opinion, render such revision necessary, and the Magistrate shall, according to such direction, revise and, if necessary, amend the same.

Magistrate may direct revision of assessment at any time of the year for reasons to be stated.

338. The Magistrate may require the panchait to revise the assessment at any period during the year, but on every such occasion he shall address a written order to the panchait specifying the reasons which render such revision necessary, and requiring an amended return within a stated period.

Publication of assessment as revised under the two last sections.

339. Whenever any assessment is revised during the year as provided in the two last preceding sections, a copy of such revised list shall be prepared and deposited as provided in section three hundred and thirty-four, and a notification shall be published in the manner directed in the said section. And all objections to such revised assessment shall be made and dealt with in the manner prescribed by section three hundred and thirty-five.

340. If the persons appointed a panchait, or a majority of them, refuse or omit, for a period of fifteen days after the receipt of an order from the Magistrate, to perform the duties required of them, the Magistrate may himself make or revise the assessment, and may enforce the same as if it had been made or revised in the first instance by the panchait:

If panchait refuse or omit to act, Magistrate may assume their functions.

Provided that the functions of the panchait shall not thereby absolutely cease and determine, but may be resumed at any time, only not so as to invalidate any act done by the Magistrate under this section.

341. Every panchait shall be appointed for the period of one year, and any person who has served as member of a panchait during one year may be reappointed so to serve during the following year.

Duration of panchait and service thereon.

Member of panchait removeable only on application of rate-payers.

343. If any vacancy shall occur among the members of a panchait, or if any member appointed shall refuse or decline or be unable to act, the Magistrate may, by a written communication to the person appointed, nominate and appoint another person to supply the vacancy or to be a member of the panchait.

Vacancies in panchait how to be supplied.

It shall be the duty of the sudder panchait to assist the Magistrate, when required so to do, in carrying out generally the objects of this Chapter, and particularly in revising the assessment made by the panchaits of wards of the Union, and inquiring into, and reporting on, appeals preferred against the same.

345. Subject to the approval of the Commissioner of the division, the Magistrate may appoint one or more tax collectors and such other servants as may be necessary for preparing, or assisting the panchait in preparing the assessment, for copying the same, for collecting the tax, keeping the accounts and records, and otherwise carrying out the purposes of this Chapter. The Magistrate shall take from every tax collector such security for the due disposal of the sums collected by him as may be thought necessary.

346. On such dates as may be fixed by the panchaits for payment of instalments of the tax, the tax collector shall proceed in person, or through some one of his office establishment, to collect the amount due for the current month from each person subject to the tax, and for all sums so collected the tax collector shall grant a receipt.

Collection of assessment.

Provided that, with the sanction of the Commissioner of the division previously obtained, the collection may be made quarterly instead of monthly, and in such case the amount due for each quarter shall be collected in the last month of that quarter.

347. For the recovery of all sums which may not be paid to the tax collector on demand, the Magistrate shall proceed as far as possible in accordance with sections one hundred and eleven to one hundred and twenty (both inclusive).

FOUNDING OF AN INDUSTRIAL INSTITUTION AT BANKIPORE, NEAR PATNA, FOR THE PROVINCE OF BEHAR.

Minute by the Lieutenant-Governor of Bengal, dated the 20th June 1876.

ON the occasion of the visit of His Royal Highness the Prince of Wales to Bankipore, near Patna, in January last, the Native Chiefs and gentlemen of Behar formed a scheme, in commemoration of that event, for the advancement of education in practical science in the Province; and for this purpose subscriptions were promised in a manner most creditable to the public-spirit and to the loyal sentiments of the upper classes in that important part of the country.

2. Some necessary, indeed unavoidable, discussion has ensued as to whether the proposed institution should take the form of an agricultural college at Poosa in Tirhoot (formerly the site of the Government Stud), or of a mechanical school at Dehree in Shahabad, near the head-works of the Sone Canal, or of an industrial institution at Bankipore near Patna. Seeing that Poosa and Dehree both possess peculiar advantages for the purposes above set forth, I should have gladly seen the present efforts directed to founding an institution at either of those places. But the wishes of the Native subscribers and supporters of the project point clearly to Bankipore as the place where the institution should be established. Such being the case, the co-operation of the Government may fairly be given to the project in that form. Moreover, Bankipore has one particular advantage in the constant presence of the civil authorities and the educational officers who would naturally afford assistance.

3. The promised subscriptions amount in all to two lakhs of rupees (£20,000), of which it is proposed to allot half a lakh to erecting a building for the institution at Bankipore, and the remaining one and a half lakhs to the endowment, so that the interest may be devoted to defraying the charges of instruction. There will also be some additional current income from private sources.

4. On these considerations I have agreed, on the application of a committee of subscribers, to allot Rs. 6,000 (six thousand) annually from Government funds as a grant-in-aid, on the condition that the subscriptions invested in Government securities shall yield at least an equal sum, that is, Rs. 6,000 annually. Besides this permanent income, there will, I trust, be current subscriptions.

5. The curriculum of the instruction to be given I would leave as much as possible to the subscribers, subject to the supervision of the Principal of the Patna College, and to the inspection of the Director of Public Instruction, or of the Inspector of Schools on his behalf.

6. I hope that a competent committee will be formed for the governance of the institution; that the technical training in useful arts and trades, smith's work, carpentry, and the like, will in the first instance be placed under the guidance of an European Mechanical Engineer; and that the passing of at least the primary scholarship standard will be prescribed as a test for the admission of scholars.

7. I commend to the attention of the committee the scheme of instruction proposed by Mr. A. W. Croft, the Inspector of Schools.

8. It will be arranged that all Government scholarships, obtained by competition under the rules, below the junior scholarships, shall, at the will of the holders, be tenable at this institution. But it will not be obligatory on any winner of a scholarship to hold this scholarship in this institution and in no other.

9. I am quite opposed to the allowing of mere stipends for attendance. Learners who require to be paid for learning are not the persons of the stamp that is needed for this institution. But those who win scholarships in open competition, and who elect to hold them here, will be welcome.

10. It appears that the committee are likely to desire for their building a site which is close to the Patna College, and which belongs to the Opium Department. I will endeavour to arrange that this site be given to the institution, on the condition that the plans for the building be submitted for the approval of Government.

11. I trust that the promised subscriptions will be rapidly collected and realized, and that the results hereafter produced by this institution, for the good of the people, will prove worthy of the munificence of the donors.
